

Innovative

The world's first smartphone app that can inform you about your general wellness in 30-seconds

Continuous Improvement

- Updating existing features
- Adding new measurements

Backed by Science

- Validated through global peer-reviewed publications
- 13 US patents registered
- Accuracy backed by global clinical studies

Cross-Platform Solution

Personal Health AI

Anura™ is an award-winning wellness and vital sign monitoring solution. It is the world's first app that can perform contactless blood pressure measurements simply by taking a 30-second video selfie, without the need for cuffs or other wearables.

Scan to try Anura™ Lite:
