

RoWrite

Smart Writing Pad

Create • Capture • Share

The traditional notepad goes digital. Write down your notes, ideas or sketches on the smart writing pad and share instantly with colleagues, friends or customers through the app.

Thanks to the combination of the pressure sensitive pen with Royole's Flexible Sensor in the pad, RoWrite will capture your most subtle stroke. The app allows you to edit, highlight, enhance, use colors and even create a video afterwards. Additionally, the app can convert written notes to text, so you can instantly share them with colleagues, friends or customers; both handwritten or as a text file. RoWrite comes with a stylish folio for protection.

KEY FEATURES

Smart Writing Pad – Write down your notes, ideas or sketches on the digital notepad and share instantly with colleagues, friends or customers through the app.

Conversion from written notes to text files

- Recognises your handwriting and converts your written notes to text documents, so you can share quickly with colleagues or friends.

Compatible with standard paper and standard pen refill

- You don't need special paper or expensive pen refills.

Store your notes and ideas digitally - One button click to share your pages seamlessly with the intuitive app on your smartphone or tablet (iOS and Android 5.0 or higher*). The pages can be modified on RoWrite until you decide to close them, even after periods of inactivity.

* Check the latest compatibility overview at royole.com.

Edit & add colour and style in the app - Use the app to edit, enhance and highlight your notes with colour or retouch your sketches. You can select from different writing instruments, change stroke thickness, erase, and use 20 different colours.

Share your pages directly from the app - Share your notes and ideas directly from the app to WhatsApp, email, the cloud or social media.

Export as video - Show your stroke sequence and the way to your conclusion with the cool video feature (MP4).
