

# Elevator IoT Solution

Your Reliable Smart Elevator IoT  
Solution Partner

# Elevator IoT Solution

# Features and Benefits

Edge Computing

Multi Level  
Security

High Stability

Flexible  
Customization

Robustel Smart Elevator  
Management Platform  
offering real-time data  
connectivity for 24/7  
supervision

Edge Computing  
framework for fast  
elevator protocol  
integration and  
data cleaning

Flexible API open to third  
parties for easy into your  
existing software or cloud  
environment

# Elevator IoT Gateways

## Industrial Sensor Gateway

- Core main sensors integrated
- Industrial-grade quality
- Highly customizable
- High reliability

## R3010

- Support 4G/3G/2G
- Various interfaces:  
RS232/RS485/Console/USB/Ethernet/FXS
- Modbus gateway serial protocol support
- Emergency call and response enabled through voice channel
