

Self-service Machine Solution

Charging Pile

Autonomous Store

Ticket Vending Machine

Digital Signage

Express Cabinet

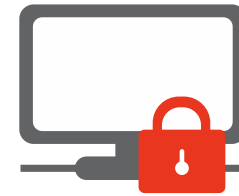

Gain from Robustel Solution

High Performance
Rich Interfaces

4G + WiFi + Wire Backup Link

Encrypted VPN Tunnel

Rich Apps from Android

One-stop Cloud Management Platform

Highly Integrated

Controller + IPC + Industrial Router

Lightweight and highly integrated

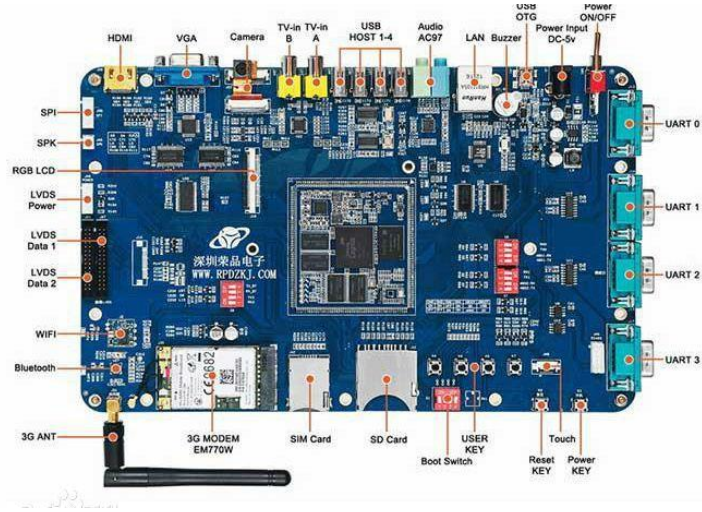

Rich Interfaces

- Ethernet
- USB
- RS232
- RS485
- TTL
- Micro USB
- HDMI
- LVDS
- SPK
- MIC
- HP
- WIFI
- mSATA
- DEBUG

RAC7000
Android Computer

Ruggedized Design

Powerful Hardware

- Freescale Cortex-A9 Quad-Core 64-bit processor for complex computing needs
- OpenGL ES2.0 and OpenVG TM1.1 for smooth fidelity
- Dual 1080P video output for HD display

Robust Industrial Design

- Industrial-grade protection, high EMC level, wide temperature and voltage range
- Adapted to complex environment and durable
- 4G + WiFi + Wire backup link strategy

Enhanced by OS and Platform

ARM Processor + Optimized Android OS

- Massive Android Apps to meet various applications
- Bottom-level driver optimized for self-service terminals
- Support background services and traffic monitoring alarms

Cloud Platform to Improve Efficiency

- Zero touch to config all devices without any programming
- Support Automatic alarm, remote maintenance, monitoring and upgrade, reducing operating costs
- Support SIM card and traffic management
