

IoT

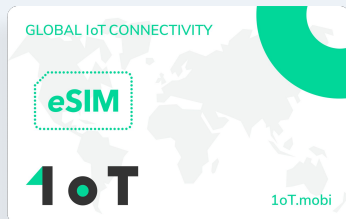

One-Stop-Shop for **Global
IoT Connectivity**

We remove the complexity in IoT connectivity

Global connectivity

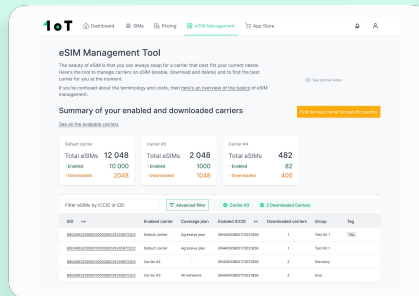

- eSIM & SIM
- Flexibility

1oT Terminal

SELF-SERVICE

- SIM management
- Data packages

1 point of contact

- 1 invoice
- Debugging
- Hardware testing

1oT SIM works anywhere in the world

- We help you pick the best Carrier SIM that fit your use case and requirements
- All 1oT SIMs are controlled via 1oT Terminal, no matter which Carrier you use
- 2G, 3G, 4G, Cat-M1 & NB-IoT coverage
- 800+ roaming networks

#1 SIM provider for eScooters

300k SIMs sold

1oT Terminal is a platform to manage eSIMs and SIMs

- Provides the whole infrastructure to deal with IoT connectivity via 1 interface
- Base features are free of charge and include changing SIM status, data session information, setting data limits, SMS, & invoicing.
- Value-added services can be activated in the “App store” and are separately paid services (usually EUR X per active SIM per month)

[See overview video](#)

We have built customisable value-added services:

- **API** support for full Terminal functionality
- **Notifications** to prevent connectivity issues
- **Diagnostics** to have an in-depth overview of SIMs
- **Future Events** scheduler to automate tasks
- **Issue Detector** to detect anomalies in device behavior
- Integrations with **Slack, MS Teams, Cisco Jasper** etc

“COMODULE has deployed 1oT SIMs in 100,000+ e-scooters in 45 countries worldwide. Including in Jump (UBER) scooters.”

COMODULE is the global leader in providing IoT solutions for **light electric vehicles**.

Kristjan Maruste, Co-Founder & CEO of COMODULE

1oT is a technology company that removes the complexities of IoT connectivity.

- **Founded in 2016**

Belongs to [Mobi Solutions Group](#) that has been building value-added services on top of telecoms since 2001. Including a mobile payment company called [Fortumo](#) and SMS sending platform [Messente](#) to the market.

- **Profitable and self-sustainable since 2018**

We have sold more than 300 000 eSIMs and SIMs globally.

- **Launched eSIM in 2019 in partnership with [Valid](#)**

Valid is 5th largest SIM card producer in the world.

Acknowledged for innovation and excellent service
