

✓ Safety certification

Model : SHT-130
Number : 21-AV2Cb-0004

✓ Patent and Certification

6 Patented

CE (Europe) KC (Korea) FCC (USA) TELEC (Japan)

✓ Awards

2020 **K-Safety Innovation Award Grand Prize**
Korea Innovation Awards

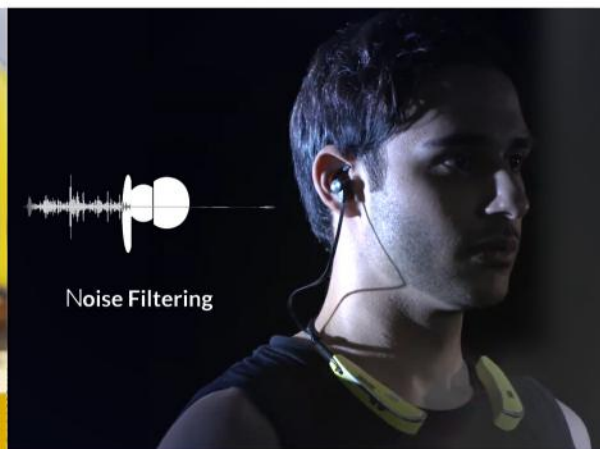

2019 **Grand Prize** in New Safety Technology Contest
ICT Device Contest **Grand Prize**

2018 Selected as an excellent product of **HIT500**
Suwon Startup Audition **Grand Prize**

2017 Selected as an **excellent product brand** at the High Seoul Awards
Selected as **venture innovation procurement product** by Public Procurement Service
Outstanding Innovation Idea Contest **Grand Prize**

2016 Safety Industry Creation Audition **Grand Prize**

Smart earplug phone for Hearing Protection
& Communication from Noise

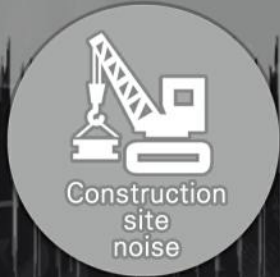

Hearing-loss & Accident Prevention

Talking sound (voice)

Factory Machinery noise

Construction site noise

Harmful environmental noise

Cancels harmful noise allows voice to pass through Voice can be heard

※What is harmful noise?
Continuously generated noise as multiple noises are collected and made into one noise

WHY Don't many workers wear earplugs even though they know the risk of hearing loss and safety accidents in harmful noise sites

- 01 Difficult to hear and communicate
- 02 Inconvenient when worn for a long time
- 03 Difficult to wear multiple safety protective devices

HOW Smart earplug phone solves this problem with sound control technology providing safety and convenience to workers

- 01 Can hear even when wearing earplugs
- 02 Comfortable when worn for a long time
- 03 Phone calls with noise canceling are possible

WHERE Smart earplug phone protects your hearing from harmful noise. Perfect for using it in such environments

- Construction site
- Industrial site
- Driving car
- Military
- Airport
- Dental hospital Hospital
- Traveling
- Sleeping
- Studying
