About US

Shenzhen Pretech Industrial Co., Ltd. was founded in 2014 and specializes in the research and development of consumer electronics. We pride ourselves in the quality of our products and excellent after-sales service. Our main products comprise Android based devices, including Tablet PC, Smartphone and Kiosk, Windows based terminals, including Tablet PC, Laptop & Notebook, And Computer Peripheral Accessories including Pencil for Apple iPad, Active Stylus for Windows and Android based products.

Pretech has rich and successful experience in handling large ODM and OEM custom projects. Recently, we have developed a touchable device which has a broad range of industrial applications, such as smart home control station, OBD diagnostic equipment for cars, health care devices for hospitals, display for AI products, as well as education tablet PCs for students, and other ODM projects too numerous to list.

By combining our high-tech R&D facility and sophisticated imported production equipment with our strict QC system, our products are guaranteed to be of the high quality. At the same time, our direct component purchasing, skilled and efficient labor force and minimum profit policy integrate to form a competitive pricing structure.

As our market share continues to grow, we continue to set new goals, striving for excellence through innovation. At the same time, we remain true to our core values of offering the best combination of quality and price and always putting our customers first. We are sure you will notice the difference and look forward to forming a successful long-term business partnership with you.

QC/Technical Support:

Our QC Department Supervisor is a professional with a master's degree. His staff all have good manufacturing experience and relevant qualifications in addition to receiving regular in-house training. There are about 30 engineers in the Technology Department which is supported by the technology of some famous companies, such as Sony, Panasonic, and Samsung.

QC Staff: 30 to 39

Materials/Components: Hong Kong, Taiwan and Japan.

Procedures/Testing Details:

Incoming materials must be strictly tested before they go into production. Production is conducted by engineers who are extremely cautious about quality and detail from the very beginning to the end

Active Pen Design for Chromebook

NEW

Precise and Smooth

Premium made 1.00mm nib is accurate down to the pixel. Provide highly sensitive and precise writing & painting experience. Write and draw naturally. Create without limits

4096 Pressure Sensitivity

Precisely sketch and shade with 4,096 pressure points that respond to the lightest touch. It is great for sketching and shading.

Palm Rejection

Rest your palm comfortably on the screen and lean in as you write or draw using this USI pencil, without any influence, don't worry about annoying marks.
