YOUTUBE

- LIVE** Real-time Voice Sharing
- REC** Digital HD Recording
- People Feedback Report
- Multilingual Subtitles
- Local Group Message QnA

No Reciver, No APP, No Hot-spot

### WHY

The FM receiver, which is an essential item used in conferences and workshops, has many problems, such frequency collision and return, battery recharging, and recycle reuse due to technical limitations. It is a premium product that improves the satisfaction of attendees with patented technology.

**X3** Like it  
**1/3** Save cost  
**30%** Batter then

### SOLUTION

## Non-face-to-face AI premium smart wireless intercom

### No Receiver / No APP / No Wi-Fi AP

It provides the highest quality HD-quality live audio service through the smart phone of the participant with only a smart phone Wi-Fi connection, and all the contents sent and received are provided as digital files through the smart phone of the participant.
