

# Play Better, Live Better

SALTED Golf & Smart Insole

**SALTED**  
GOLF

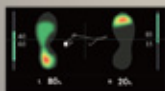

## ***SALTED*** GOLF

With real-time analysis of ground force and weight shift; SALTED golf is an all-in-one solution, providing data to everyone, from pro golfers to beginners, and help improve your swing.

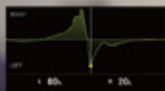

## Real Time Measurements

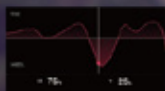

### **Foot Pressure Map**

Track your swing balance, pressure distribution, and COP (Center Of Pressure) in real-time.

### **Left & Right**

Visualized weight shift between your left and right foot during your swing.

### **Heel & Toe**

Visualized weight shift between your heels and toes during your swing.

## Various practice functions

Optimized functions for golf practice and swing improvement

### Personal practice

Download & compare your swing with a pro's swing.

### Lesson & Coaching

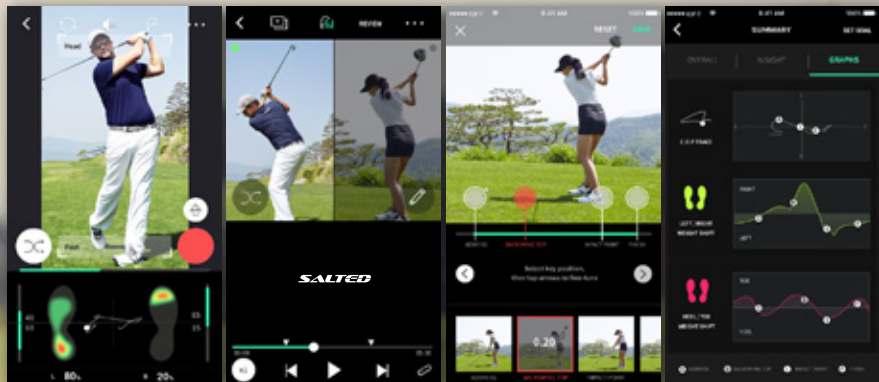

Note your progress using drawing and voice recording tools.  
Share your progress through social media.

“Improve your golf shot by knowing”  
your balance and weight shift.

## Smart swing analysis

Practice swings using smart insoles and the golf solution application

Golf Solutions based on balance and weight shift
