to learning life through the 'Story', which is we offer on our APP.

our vision _____

Creative Ballet LAP is studying and designing the programs,
that Child Ballet Education based on basic technique of
ballet and positive mentality, for child's development in terms of
Creativity, Sociality, Physical growth.

SOYES BALLET program which is child-development education
studied by Doctor's degree of Dance and psychology. To develop child's
creativity, we are combining our contents with the skills of the
fourth industrial revolution.

The result is an app that kids will love, supported by safety features that
parents need. Furthermore, it is a great app that features learning
ballet through the videos and challenges your child to create something
new. It allows your child to share their new creations and discoveries
with parents and friends in a safe online environment.

creative ballet contents _____

Departing from usual ballet class, we make the programs by using
variety rule games, visual multidisciplinary contents (AR / VR / AI),
positive mentality, and auditory elements with our creative stories
in order to having an enjoyable ballet experience.
