

**Hello!**  
**Good to see you.**

**We are**  **radio biscuits**

Radio biscuits, which brings together wireless communications experts with excellent ability to understand and commercialize the needs of the wireless solution market, first-generation developers who developed Android smartphones themselves in South Korea, and digital media designers with user-focused design capabilities, is an **R&D-based startup with core technologies for smart IoT protocols that are controlled by wireless communications.**

We aim to **develop a smart IoT platform that anyone can use easily and conveniently.** We will make products and services that can make convenience and positive changes in our lives as well as devices.

We are looking for business partners in a variety of fields.

Anywhere be with U  
radio biscuits

R&D-based startup with core technologies  
for smart IoT protocols controlled  
by wireless communication

# ibiscuit

Smart IoT solution that missing children prevention services available worldwide.

Me, My child, We're all relieved by using ibiscuit.

A child who had fun at Disneyland disappeared before my eyes. A pleasant trip with my family quickly became hell.

'I would like to immediately know when my child just far away from me...'

'If only disappeared my child, I want to know he is around me...'

Don't worry. ibiscuit will help capture your happy memories.

The small behavior to keep your child, ibiscuit

- ✓ Available worldwide
- ✓ Direct communication between each device is possible without an additional base station or communication fee.
- ✓ The services provide the notice when the child breaks away from the safe zone.  
\*The size of the safety zone may vary depending on the environment of use.
- ✓ Available to connect up to 5 kid's devices to a single guardian's device.

# ibiscuit group

Smart IoT solution that automatically counting the number of children for instructive outdoor activities.

Teacher! Take a break with the ibiscuit group.

'Let me see... Everybody is here? one, two, three,...'  
Are you over and over counting the heads at outdoor activities?

Now you can slack off with the ibiscuit group. The ibiscuit group will count the number of children instead of you.

You just take care of the activity programs.

The best choice for instructive outdoor activities, ibiscuit group
