ISTRA Collab

Competitive collaboration solutions for all your needs

ISTRA Collab offers flexible options for videoconferencing and collaboration allowing enterprise end-users to efficiently collaborate and organize remote video meetings with screen and file sharing.

Accessible via single sign-on from your ISTRA platform and mobile application MOBiiS, all participants can use the collaboration features from our platform as a seamless user experience.

ISTRA Collab is available in two packages, ISTRA Collab Business and ISTRA Collab Enterprise which you can choose according to your collaboration needs and budget.

ISTRA COLLAB BUSINESS

VIDEO CONFERENCING MADE EASY
FOR UP TO 25 PARTICIPANTS

ISTRA Collab Business is Enreach's light-weight online meetings solution for your business customers.

Start an online meeting right from your browser, without the need to download external software. Based on WebRTC technology. Guests only need to click on a link to access the host's waiting room, where audio and video tests are performed before the start of the meeting, meaning no delays.

Key Features

- Waiting room for guests, even send them a message
 - 1:1 and group video call and dial-in access
 - In-meeting group and private chat
 - Screen and document sharing
 - Video broadcasting
- Use from your browser

The host has specific rights:

- Participant management
- Local video recording
- Mute and disable participants' video
- Allow guests to screenshare
- End the meeting for one or all participants

Your Benefits

- Cost-effective: don't pay for features you don't use
- Hassle-free: no need to download any software, works from your browser

ISTRA COLLAB ENTERPRISE

FULLY-FEATURED COLLABORATION
SOLUTION FOR UP TO 300 PARTICIPANTS

ISTRA Collab Enterprise is powered by Zoom and offers the most advanced collaboration tool for enterprise customers for an unlimited number and duration of the meetings.

Key Features

- Private or shared rooms
- Screen and document sharing
- White-boarding and remote control
- Group and private chat
- Meetings scheduling
- Multi-platform support (PC, MAC, iOS, Android)
- Conference recording

The host has specific rights:

- Meeting recording
- Participants management
- Mute and disable participants' video
- Leave the conference while the participants continue

Your Benefits

- Meetings as you want: collaborate from the device of your choice
- Full functionality: a complete collaboration solution for a fixed price
