What's apptest.ai?

Look Ma No Hands! No more test code

We trained a testbot to explore your app and locate critical errors so that you don't have to.

Super Fast Test in 100 Devices

Need your app to be tested 100 Devices? No problem. Our AI Testbot can test and report in 30 mins.

AI will tell you everything about the bug

Replaying error is so much easier now! AI will tell you where it happened along with path, screenshots, performance, and logs.

How to use?

- 1. Upload Your App Binary (.ipa/.apk)**
Also, you can skip the manual app upload for each test. AI Testbot will fetch your app automatically once built from your CI repository when configured.
- 2. Click "New Test"**
Optionally, you can choose any target phones, or specific account credentials for testing.
- 3. Get Results in Minutes**
When testing is completed, app screen flows, bug reports, and performance optimization guides will be generated.

Features

1) Bugs In Depth Report

2) Visual Test Tree

3) All of your screenshots

4) CPU/Memory Performance

5) Easy App Optimization Guide for Developer
