- *Complete DND, Short Code and Subscription Management.*
- *Business revenue assurance.*
- *24/7 Real Live Support.*

*Once you have a solid and valuable solution, you don't sell it neither rent it. You offer it for free.  
18 years of knowledge and success with operators and TRA.*

*At BroadNet we seek to help operators to invest at their personnel instead on solutions.*

**BroadNet Technologies** is the pioneer of SMS Messages solutions in more than 12 countries with more than 18 years of experience, we are an **ISO Certified** company and a **GSMA** associated member.

BroadNet **SMSC Gateway and Firewall** is advanced, unique, smart and powerful SMS Gateway for Carriers and Operators to Monetize A2P SMS, deliver SMS, group SMS, SMS short codes and broadcast SMS features to their subscribers.

BroadNet SMSC is a proven, carrier-grade solution delivering industry-leading Performance, availability and capacity, scaling to any size deployment in handling Large Volumes, Load Balancing, Routing and High Throughput.

- ❖ *It provides easy integration with any third-party communication protocol or system using industry-standard telecom interfaces.*
- ❖ *Advanced whitelist and Blacklist sender's management on the fly with multi-level SMS priority.*
- ❖ *Excellent international connections with major OTP players allowing BroadNet Firewall to easily monetize A2P SMS.*
