

rdcom benefits

Quality of service with direct connections

rdcom has direct connections to mobile operators around the globe and our intelligent routing delivers every SMS in a very short amount of time with the best possible quality. Our gateways are distributed in numerous data centers, ensuring global coverage, high reliability, redundancy and continuity of services

H24 support

We have a dedicated team of experts, the Customer Support, who are always available to offer accurate assistance. We provide a high level of technical support, in different languages, 24/7/365

rdcom benefits

Over 20+ years of presence in the market

rdcom started in 2000 as a provider of SMS marketing services, in these 20+ years we've created and experienced new channels, tools and functionality to become now Business Messaging experts

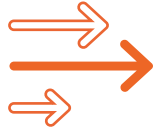

Dedicated Wholesales team

We have a dedicated team of experienced SMS experts that are responsible for making direct connections with mobile operators, testing and assuring the quality of **rdcom** routing, trading with other aggregators and maintaining a complete A-Z coverage

rdcom **benefits**

Integration with other channels

In addition to SMS, we offer the integration with other channels such as email and RCS. We strongly believe that reaching people through featured and combined messages and having a multi-channel approach helps to achieve maximum impact, intensify the engagement and provide a better customer experience

Proprietary infrastructure and software

Our focus is based on innovation to optimize performance and results. We provide simple yet powerful proprietary solutions to create and enhance business. Our internal IT team is made up of experienced and committed people who are working everyday to develop and improve our solutions
