

Investments made in new technologies

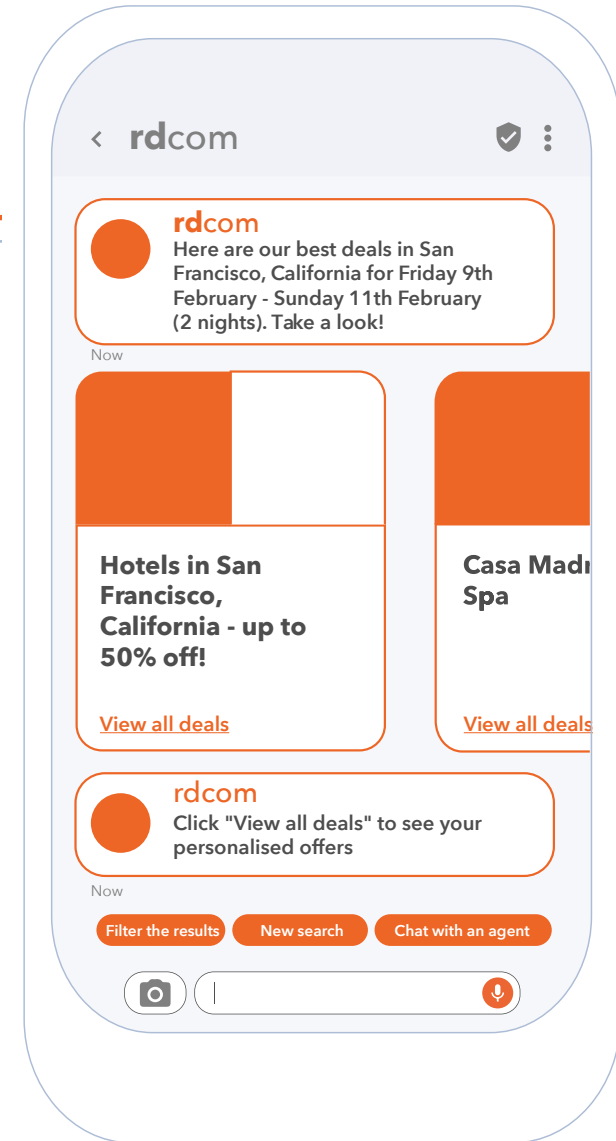

RCS

We have created interconnections with different HUBs (Google, Vodafone, Mavenir) for RCS terminations and built an in-house software to create the content and send the messages

We have trained both our IT developers and our sales force

We have evangelized the Italian and Spanish market, illustrating the RCS solution to the main brands

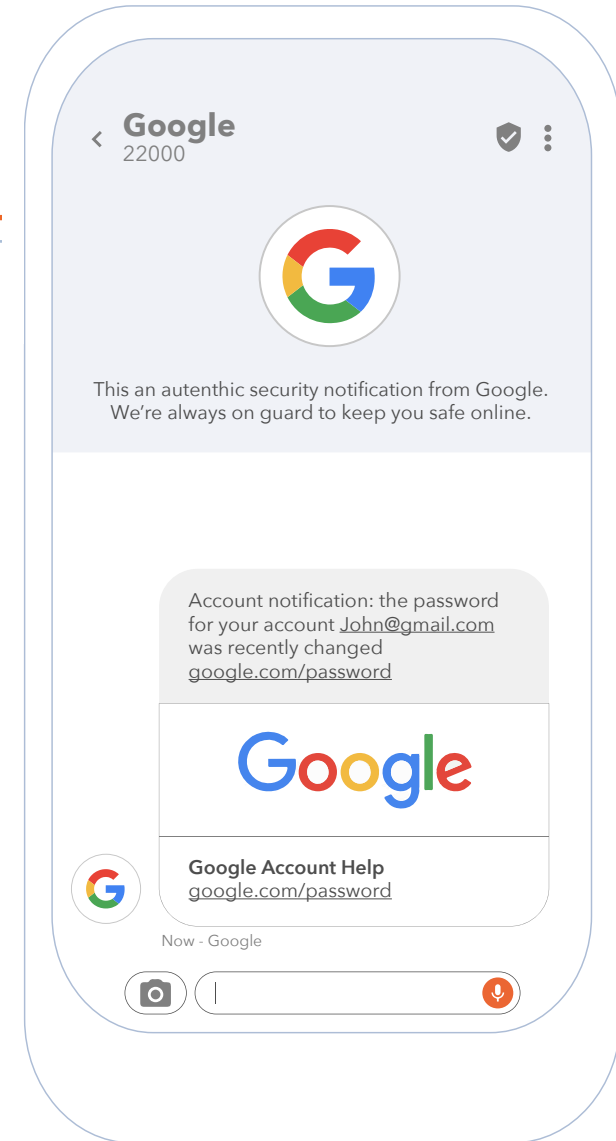

We are working with major mobile operators (MNOs) to facilitate the adoption and launch of RCS to their customer base

Investments made in new technologies

Google Verified SMS

We have launched Google Verified SMS service

Investments made in **new technologies**

Viber, Telegram and WhatsApp

We're currently working on the integration of Viber and Telegram within our Multichannel Platform

We will launch WhatsApp Business API as soon as we will be welcomed into the partner program
