About Message Networks
Who we are

Message Networks is an experienced mobile communications provider of a cloud-based messaging platform.

We enable our B2B customers to generate a uniquely digital, personal, secure and long-term customer relationship through our Multi-Channel Communications Platform as a Service (CPaaS). We help companies achieve efficiency through automation using intelligent chatbots. They communicate via SMS or the most popular messaging channels and turn communication into measurable revenue.

Be close to your customers
# Messenger Communications Platform

There's nothing people do more often with their smartphones than messaging.
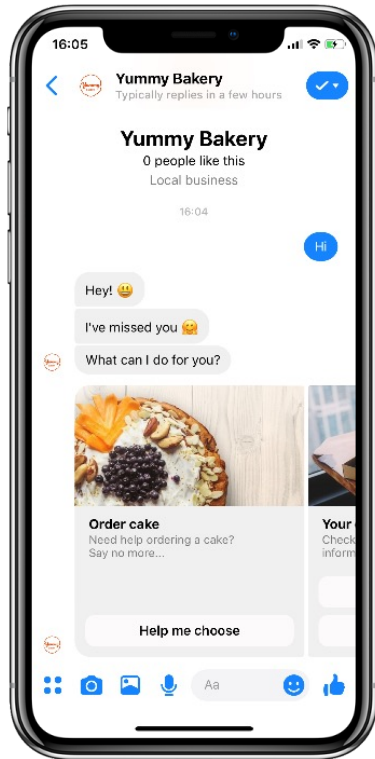

Facebook Messenger

WhatsApp

RCS

IVR divert to messaging

Website

Efficient tool in communication
SMS Messaging

98%

of all SMS are opened in a short time

150

times a day the typical person looks at their smartphone

90

Seconds is the typical response time for a SMS, for an email it is 2.5 days
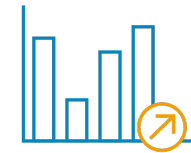

100%

network operator coverage from Message Networks
