INNOVATIONS FOR A
NEW ERA OF CONNECTIVITY

Innovations for a New Era of Connectivity

Reliable 5G Fixed Wireless Access for Cost-Effective Enterprise Deployments

- 5G FWA Solution for Enterprise Networks

Simple & Intuitive Cloud-Based Management with Unlimited Scalability

- Nuclias Cloud

Customizable Onsite Management with In-Depth Analysis for Wireless and Surveillance

- Nuclias Connect

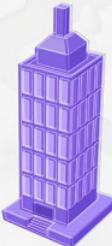

Seamless 5G and Wi-Fi 6 Smart Home Connectivity with AI-Based Management

- 5G Outdoor CPE
- AI-Based Wi-Fi 6 Solutions
- mydlink Smart Camera Solutions

5G Private Network for Enterprise

Reliable, cost effective fixed wireless access for businesses

The high cost and complexity of traditional fixed broadband rollouts can be quite challenging for high-speed enterprise network applications.

D-Link enables telecom operators to deliver fixed wireless access gateways for managed voice, video, data and IoT services connected over fixed wireless access networks, with options for 5G NR Sub-6, LTE and WCDMA/HSPA+.

DWP-1010

5G/LTE Outdoor CPE

The DWP-1010 is an easy to deploy, high performance 5G/LTE outdoor CPE. It features a dedicated multi-Gigabit Ethernet port and 5G/LTE mobile broadband for maximum redundancy and flexibility for intense Internet applications in remote areas. Rugged design and flexible deployment options combined with ease of use make the DWP-1010 ideal for both large scale and individual deployments.

- 5G/LTE for lightning fast dual mode Internet connectivity
- 1 x 2.5-Gigabit Ethernet LAN port with PoE
- IP67 weather resistant rating for outdoor installation
- 6 x Internal sub-6 GHz and LTE antennas
- EZFi mobile app for simple setup and management

DWM-3010

5G IoT Gateway

The D-Link DWM-3010 is a 5G M2M IoT gateway that delivers exceptional 5G broadband connectivity, facilitating IoT device-dense environments to operate with ultra-low latency, Gigabit-plus speeds and high reliability to support mobile operators with a competitive solution against traditional fixed line broadband services.

- High Speed 5G NR Internet for lightning fast and low latency connectivity
- Dual-Band AC 1200
- High speed Gigabit connections for wired devices
- Connect to 50 Wi-Fi devices in device dense working environments
- Dual-SIM slots for redundant connectivity
- Future-proof and compatible with next-gen Internet standards

DXS-3610

Layer 3 Stackable 10G Managed Switches

The DGS-3610 Series Layer 3 Stackable 10/100 Managed Switches are a set of new high-performance switches that feature ultra-low latency, with 10G/100G Ethernet switching and full Layer 3 routing make the DGS-3610 Series suitable for enterprise and campus core/aggregation network environments.

- 6 x 40G/100G Ports for ultra-fast uplinks
- 48 x 10G BaseT or SFP+ ports for high connection density
- 1.2T stacking bandwidth for scalability
- Hot-swappable redundancy for maximum availability
- SDN compatible for software-defined applications
- D-View 8 platform for in-depth centralized management of mission-critical networks

DGS-1520 Series

Next Generation Layer 3 Stackable Smart Managed Switch

Unleash your Wi-Fi 6 capabilities with PoE & multi-Gigabit ports and effortlessly aggregate your Gigabit network with 10 GB uplink and stacking.

- 10G Base-T and/or SFP+ (fiber) ports for stacking or uplink
- 4 x 2.5G Base-T ports for Wi-Fi 6 APs (PoE models)
- Stack up to 8 switches for high density Gigabit aggregation
- Zero Touch Provisioning for effortless multisite deployment
- Up to 370W PoE output per switch
- Connect with DPS 520 for power redundancy (non PoE models)
- Supports dynamic routing and selective Q-in-Q tagging for advanced manageability

DGS-2000 Series

Managed Access Switches

The DGS-2000 Series provide a diverse range of Gigabit port densities to accommodate various needs of enterprise access layer connectivity. With options such as PoE to conveniently power edge devices, SFP ports to extend network connectivity, advanced Layer 2 functionalities, and Layer 3 Lite manageability, the DGS-2000 Series is the ideal choice for any enterprise access layer deployment.

- Different combinations of 1000BASE-T, 100/1000 Mbps GbE/SFP, and 10/1000 Mbps SFP
- Up to 30W per port with 370W total PoE power budget (PoE Models Only)
- Equipped with a complete lineup of L2 features, including IGMP snooping, port mirroring, spanning tree protocol(STP), and link aggregation control protocol (LACP).
- D-Link's Safeguard Engine™ helps protect against traffic flooding from malicious attacks.

DAP-X2850

Nuclias Connect AX3600 Access Point

The Wi-Fi 6 ready DAP-X2850 is on hand to provide unbeatable speeds, greatly increased capacity and interference-free coverage throughout businesses, paired with the easy management of Connect.

- Easy to manage with D-Link's free software based management solution, Nuclias Connect
- Wi-Fi 6 ready: delivers greater network efficiency and lower latency, with nearly four times the capacity of previous Wi-Fi standards
- MU-MIMO slices through congestion, reducing wait time for all users
- Superior throughput with dual-band Wi-Fi offers high transfer speeds
- Two LAN ports (2.5 Gbps and 1 Gbps) offer expansive backhaul up to wired network, eliminating bottlenecks at the AP
- Support for Power of Ethernet 802.3at means less wires, for cleaner and easier deployment

DXS-1210-28T/28S

Layer 3 Stackable 10G Managed Switches

The D-Link DXS-1210 Series 10 Gigabit Ethernet Smart Managed Switches are a cost-effective 10 Gigabit switch series capable of servicing a range of network needs in any business environment. These switches fulfill the needs of virtualization, cloud service, and server-to-server applications.

- 24 x 10G BaseT /SFP+ ports for low latency and high bandwidth environments
- 4 x 10G/25G SFP28 ports for scalability
- Extensive Layer 2 and Lite Layer 3 features for optimized bandwidth utilization and resiliency
- D-Link's Safeguard Engine™ helps protect against traffic flooding from malicious attacks.
- D-View 8 platform for centralized in-depth management of mission-critical networks

DCS-4618EK

Vigilance 8 Megapixel H.265 Outdoor Dome Camera

The DCS-4618EK dome camera boasts reliable businesses surveillance and security. High-resolution video, as well as intelligent image-improving features ensure footage that can be relied on.

- 1/2.5" 8-megapixel progressive CMOS sensor captures high-quality footage
- Motorized varifocal lens allows easy remote adjustment for the perfect field of view
- Wide Dynamic Range (WDR) image enhancement improves footage quality in high contrast lighting conditions
- H.265 compression strikes the perfect balance between high image quality and bandwidth efficiency
- Block out or mask sensitive areas with the Privacy Mask

DCS-4718E

Vigilance 8 Megapixel H.265 Outdoor Bullet Camera

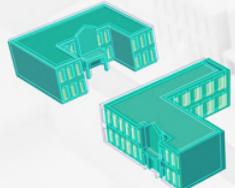

The DCS-4718E bullet camera boasts reliable businesses surveillance and security. High-resolution video, as well as intelligent image-improving features ensure footage that can be relied on.

- 1/2.5" 8-megapixel progressive CMOS sensor captures high-quality footage
- Wide Dynamic Range (WDR) image enhancement improves footage quality in high contrast lighting conditions
- H.265 compression strikes the perfect balance between high image quality and bandwidth efficiency
- Motion Detection not only saves bandwidth, reviewing footage is also much easier
- Block out or mask sensitive areas with the Privacy Mask

Cloud Network Management for Large Campuses

Simple & Intuitive Cloud-Based Management with Unlimited Scalability

A Cloud-based network management platform (Nuclias Cloud) allows campus networks to be quickly deployed and easily maintained without the need for highly-trained technicians, giving operators the flexibility and scalability to swiftly accommodate campus network needs with unlimited scalability.

Nuclias Cloud SD WAN Gateway

The Nuclias Cloud Business Gateway is built for cloud managed, secure networks of small to medium sized organizations with multiple sites and limited IT resources.

- Centralized cloud-based management, with intuitive web and app-based interface
- Establish point-to-point VPN connections quickly between Nuclias Cloud SD-WAN gateways
- Intrusion prevention system to inspect vulnerabilities and protect intrusions from unknown backdoors
- Dynamic web content filtering to keep the network safe against malicious websites and provide behavior analytics
- Application control to streamline configuration of security settings and propagate to all the connected SD-WAN gateways

DBS-2000 Series

Nuclias Cloud Managed Switches

The combined simplicity of cloud management and professional grade switching hardware offer the flexibility and capacity to meet the needs of any busy SMB.

- Centralized cloud-based management, with intuitive web and app-based interface
- 10/28/52 GE ports with 2/4 combo GE/SFP ports
- With Zero Touch Deployment, deployment is flexible and fast: get online in no time
- IGMP Snooping and Loopback Detection secure your network, with the added benefit of traffic optimization
- Up to 370W PoE budgets power even more external devices than ever before
- Advanced features mitigate broadcast storms and network loops, maintaining high network availability

DBA-X2830P

Nuclias Cloud Managed AX3600 Access

The Wi-Fi 6 ready DBA-X2830P access point is on hand to provide unbeatable speeds, greatly increased capacity and interference free coverage throughout businesses.

- Centralized cloud-based management, with intuitive web and app-based interface
- Wi-Fi 6 ready: delivers greater network efficiency and lower latency, with nearly four times the capacity of previous Wi-Fi standards
- 4 x 4 MU-MIMO slices through congestion, reducing wait time for all users
- Superior throughput with dual-band transfer speeds of up to 1147 Mbps in the 2.4 GHz band and 2402 Mbps in the 5 GHz band
- Two LAN ports capable of Link Aggregation offer 3.5 Gbps of backhaul up to the wired network, eliminating bottlenecks at the AP

DBA-3620P

Nuclias Cloud Managed AC1300 Wave 2 Outdoor Access Point

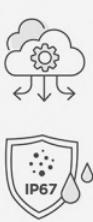

A robust outdoor access point with IP55 rating that can provide coverage throughout the heat of summer and the coolest of winters.

- Centralized cloud based management, with intuitive web and app-based interface
- Dual-band wireless speeds offer a formidable 1267 Mbps throughput
- Slice through congestion with better handling of multiple connections thanks to IEEE 802.11ac Wave 2 wireless
- 2 x 2 MU-MIMO Antenna with two spatial streams handles simultaneous connections more efficiently
- Supports WPA3™ -the latest Wi-Fi security for more protection
- Supports Power over Ethernet for simpler installation with less cable clutter

DBA-3621P

Nuclias Cloud Managed AC1300 Wave 2 Outdoor Access Point

Ruggedized access point extends resilient business connectivity outdoors with IP67 rating.

- Centralized cloud based management, with intuitive web and app-based interface
- Dual-band wireless speeds offer a formidable 1267 Mbps throughput
- Slice through congestion with better handling of multiple connections thanks to IEEE 802.11ac Wave 2 wireless
- 2 x 2 MU-MIMO Antenna with two spatial streams handles simultaneous connections more efficiently
- Supports WPA3™ -the latest Wi-Fi security for more protection
- Supports Power over Ethernet for simpler installation with less cable clutter

 PoE

DCS-4618EK

Vigilance 8 Megapixel H.265 Outdoor Dome Camera

The DCS-4618EK dome camera boasts reliable businesses surveillance and security. High-resolution video, as well as intelligent image-improving features ensure footage that can be relied on.

- 1/2.5" 8-megapixel progressive CMOS sensor capture high-quality footage
- Motorized varifocal lens allows easy remote adjustment for the perfect field of view
- Wide Dynamic Range (WDR) image enhancement improves footage quality in high contrast lighting conditions
- H.265 compression strikes the perfect balance between high image quality and bandwidth efficiency
- Block out or mask sensitive areas with the Privacy Mask

 PoE

DCS-4718E

Vigilance 8 Megapixel H.265 Outdoor Bullet Camera

The DCS-4718E bullet camera boasts reliable businesses surveillance and security. High-resolution video, as well as intelligent image-improving features ensure footage that can be relied on.

- 1/2.5" 8-megapixel progressive CMOS sensor captures high-quality footage
- Wide Dynamic Range (WDR) image enhancement improves footage quality in high contrast lighting conditions
- H.265 compression strikes the perfect balance between high image quality and bandwidth efficiency
- Motion Detection not only saves bandwidth, reviewing footage is also much easier
- Block out or mask sensitive areas with the Privacy Mask

On Premise Network and Surveillance Management for Multi Branch Offices

Customizable Onsite Management with In-Depth Analysis for Wireless and Surveillance

An on-premise software-based management platform (Nuclias Connect) gives SMB operators more control and allows in-depth analysis to enhance manageability over multi-branch wireless and surveillance network infrastructures.

DNH-200

Nuclias Connect Hub Plus

A compact, cost-effective solution that can manage up to 50 Nuclias Connect access points and 20 IP cameras, most suited to locations where a dedicated PC or server might not be practical.

- D-Link's centralized management software based solution, Nuclias Connect, allows total network management with ease
- View up to 20 camera streams in live time at once
- Supports H.265 which doubles the coding efficiency, and lowers the cost of storage and transmission
- Deploy and manage up to 50 access points and 20 IP cameras centrally
- Fully functioning integrated Network Video Recorder (NVR)and network controller

DAP-3712

20 km Long Range 802.11ac Wireless Bridge

A resilient solution that overcomes the challenges of rural areas and tricky terrain to supply stable, high-speed connectivity over vast distances.

- Features high-gain 23 dBi directional antenna supplying high-speed, stable coverage to up to 20 km away
- Integrated TDMA Technology cuts through interference to ensure high-speed, consistent coverage
- Superior throughput with single-band transfer speeds of up to 867 Mbps Refined design effortlessly blends into any setting
- Supports WPA2™ — Wi-Fi security for more protection
- Support for Power over Ethernet means less wires, for cleaner and easier deployment
- Features an IP66 rating, boasting water-resistant & dust-tight housings

DAP-X2850

Nuclias Connect AX3600 Access Point

The Wi-Fi 6 ready DAP-X2850 is on hand to provide unbeatable speeds, greatly increased capacity and interference-free coverage throughout businesses, paired with the easy management of Connect.

- Easy to manage with D-Link's free software based management solution, Nuclias Connect
- Wi-Fi 6 ready: delivers greater network efficiency and lower latency, with nearly four times the capacity of previous Wi-Fi standards
- MU-MIMO slices through congestion, reducing wait time for all users
- Superior throughput with dual-band Wi-Fi offers high transfer speeds
- Two LAN ports (2.5 Gbps and 1 Gbps) offer expansive backhaul up to wired network, eliminating bottlenecks at the AP
- Support for Power of Ethernet 802.3at means less wires, for cleaner and easier deployment

DCS-4618EK

Vigilance 8 Megapixel H.265 Outdoor Dome Camera

The DCS-4618EK dome camera boasts reliable businesses surveillance and security. High-resolution video, as well as intelligent image-improving features ensure footage that can be relied on.

- 1/2.5" 8-megapixel progressive CMOS sensor captures high-quality footage
- Motorized varifocal lens allows easy remote adjustment for the perfect field of view
- Wide Dynamic Range (WDR) image enhancement improves footage quality in high contrast lighting conditions
- H.265 compression strikes the perfect balance between high image quality and bandwidth efficiency
- Block out or mask sensitive areas with the Privacy Mask

DCS-4718E

Vigilance 8 Megapixel H.265 Outdoor Bullet Camera

The DCS-4718E bullet camera boasts reliable businesses surveillance and security. High-resolution video, as well as intelligent image-improving features ensure footage that can be relied on.

- 1/2.5" 8-megapixel progressive CMOS sensor captures high-quality footage
- Wide Dynamic Range (WDR) image enhancement improves footage quality in high contrast lighting conditions
- H.265 compression strikes the perfect balance between high image quality and bandwidth efficiency
- Motion Detection not only saves bandwidth, reviewing footage is also much easier
- Block out or mask sensitive areas with the Privacy Mask

Seamless 5G and Wi-Fi 6 Smart Home Connectivity with AI-Based Management

Technologies such as AI, Wi-Fi 6, 5G and Mesh enable home networks to become faster and smarter to handle the increase of data and simultaneous users; business networks must extend into home offices to facilitate decentralized work forces without affecting productivity post-pandemic.

5G Wi-Fi 6 Mobile Hotspot

Experience lightning fast 5G connection speeds and the power of Wi-Fi 6 on all your connected devices whether at home, the office or on the go.

- 5G connectivity speeds & Wi-Fi 6 performance in one device
- Supports multiple 5G bands for increased international connectivity options
- Portable, compact and light — designed to go wherever you go
- 2.4" color LCD touchscreen for easy monitoring and use
- Gigabit Ethernet port for high-speed wired connectivity when desired
- Supports the latest Wi-Fi security — WPA3™ encryption for more protection

R15

AX1500 Wi-Fi 6 AI Router

The R15 AX1500 Wi-Fi 6 AI Router brings AI enhanced capabilities that optimize your Wi-Fi, and the AI Assistant to intelligently monitor, and give simple, actionable recommendations to keep your Wi-Fi at peak performance.

- Dual-band Wi-Fi 6 performance with speeds up to 1.5 Gbps
- Advanced AI capabilities help ensure optimal Wi-Fi and Mesh performance at all times
- 3 x GbE LAN ports & 1x GbE WAN port provide optional wired connectivity
- D-Link Wi-Fi Mesh lets you add other compatible D-Link AI Series to expand your network as you wish
- Voice Control for an even easier home Wi-Fi networking experience
- D-Link Ai app for simple management

AX1500 Wi-Fi 6 AI Mesh Router

The M15 AX1500 Wi-Fi 6 AI Mesh Router brings AI enhanced capabilities that optimize your Wi-Fi, and the AI Assistant to intelligently monitor, and give simple, actionable recommendations to keep your Wi-Fi at peak performance.

- Dual-band Wi-Fi 6 performance with speeds up to 1.5 Gbps
- Advanced AI capabilities help ensure optimal Wi-Fi and Mesh performance at all times
- 1 x GbE LAN ports & 1x GbE WAN port provide optional wired connectivity
- D-Link Wi-Fi Mesh lets you add other compatible D-Link AI Series to expand your network as you wish
- Voice Control for an even easier home Wi-Fi networking experience
- D-Link Ai app for simple management

E15

AX1500 Wi-Fi 6 AI Range Extender

The E15 AX1500 Wi-Fi 6 AI Range Extender brings AI enhanced capabilities that optimize your Wi-Fi, and the AI Assistant to intelligently monitor, and give simple, actionable recommendations to keep your Wi-Fi at peak performance.

- Dual-band Wi-Fi 6 performance with speeds up to 1.5 Gbps
- Advanced AI capabilities help ensure optimal performance at all times
- 1 x GbE LAN ports & 1x GbE WAN port provide optional wired connectivity
- D-Link Wi-Fi Mesh lets you add other compatible D-Link AI Series to expand your network as you wish
- Mesh Smart Roaming technology auto connects you to the strongest signal
- Easy setup with one-touch WPS button and free D-Link Ai app

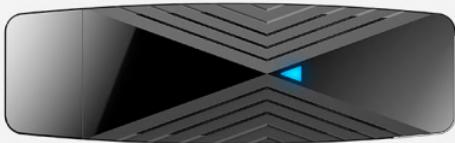

DCS-8526LH

Full HD Pan & Tilt Pro Wi-Fi Camera

The Full HD Pan & Tilt Pro Wi-Fi Camera gives you 360° views of any room. Its pan-and-tilt technology and panorama view angle selection allows you to see every angle of any room. With powerful auto-motion tracking, edge-based person detection and night vision up to 5m this all-seeing watchful eye tracks and alerts you to anything or anyone that moves around your home.

- 1080p Full HD resolution with pan and tilt technology (340° pan & 100° tilt)
- Night vision up to 5m (16 ft.)
- AI-based person detection and auto-motion tracking
- Ethernet / Wi-Fi connectivity
- Two-way audio
- Supports mydlink app with up to a one year free cloud recording plan

DWA-X1850

AX1800 Wi-Fi 6 USB Adapter

The world's first Wi-Fi 6 USB adapter conveniently plugs right into your laptop or PC and delivers next-generation AX1800 speeds along with advanced features such as OFDMA, MU-MIMO and WPA3™ network security. An instant upgrade to any PC or laptop.

- World's first Wi-Fi 6 USB dongle
- AX1800 Speeds up to 600 Mbps (2.4 GHz) / 1200 Mbps (5 GHz)
- OFDMA and MU-MIMO technologies ensure a fast and efficient Wi-Fi connection
- The latest WPA3™ network security
- Auto installation driver For Windows 7/10

1080p
FULL HD

DCS-8635LH

2K QHD Pan & Zoom Outdoor Wi-Fi Camera

The DCS-8635LH is a 2K QHD outdoor Wi-Fi camera with motorized pan capabilities enabling users 360-degree views. With advanced AI features-person detection, vehicle detection and auto-motion tracking and night vision up to 5m in complete darkness the DCS-8635LH is the perfect outdoor home surveillance solution.

- 1440p 2K resolution with 360° Views (270° motorized pan)
- Night vision up to 5m (16 ft.)
- AI-Based person detection / facial recognition / auto-motion tracking
- Ethernet connectivity / Wi-Fi
- Two-way audio
- Supports mydlink app with up to a one year free cloud recording plan
