Kigen is hosting a month of exclusive eSIM and iSIM webinars for MWC'21

**Trust in digital economy:**  
Hear Vincent talk to Rachel Hicks of Business Reporter on why trust is vital for digital economy

**Partner video:**  
See latest iSIM growth insights and benefits of iSIM in industrial water metering solutions

**Partner video:**  
How iSIM enabled tracking solutions can shift the future of supply chains towards full transparency and visibility

# Why us?

## Evolving the SIM with a fabless approach

---

Team combines best technical expertise with deep relations with ecosystem

Trusted partner to eight of the top 10 leading chipset and module vendors

Data generation and RSP services available (GSMA SAS)

Neutral security IP delivered in close partnerships

An aerial night view of a city skyline, likely Chicago, with prominent skyscrapers like the Willis Tower. The image is overlaid with a digital, futuristic aesthetic featuring glowing blue and white lines, grids, and data-like patterns, suggesting a theme of technology and connectivity.

# Solving trust in IoT together

---

Are you in the process of scaling your IoT deployment?

Are you deploying across multiple regions or networks?

Can simplified out of the box connectivity help you innovate?

We can help unlock the promise of  
IoT for your business
