for innoMovie by adding acoustic sound effect,
while you are watching movies on the go!
Technology patents(10-2281057) and design patents

Portable Projector with Stereo sound Woofer BlueTooth Speaker

InnoFlask is an advanced portable Bluetooth audio device.
The unique design stands out and is the envy of many.
This is the ideal companion for all who want a small,
highly portable audio speaker
with distortion free sound. It can be used in the home or
office or on the road for convenience and listening pleasure.
The built-in dual 3W with a powerful 6W woofer..
You can thus hear the subtle flow of water,
falling leaves, as well as the booming explosions.
Optimized sound modes for the best audio
quality in movies, shows, sports, games, and music.
The Bluetooth 4.2 allows for speedy
connection to your Smartphone or Tablet.
Twin speakers provide true stereo sound.
The Li-ion battery provides more than
6 hours of listening pleasure.

Design by INNODESIGN, California
This simple trademark represents the extraordinary amount of
thought and sweat that goes into the design of our product. We
strive for elegant looks and ease of use. At INNODESIGN, we aim
to create designs that we would be proud to call our own.
Enjoy!
