TNZI to transform global voice network with Odine Solutions

ISTANBUL, March 30, 2021 /PRNewswire/

Telco-Cloud Systems Integrator and OSS/BSS Software Provider Odine Solutions, is pleased to announce that TNZI will deploy Odine Nebula+ (Odine's End-to-End Wholesale Voice Management Suite) to deliver network transformation and driving business automation and routing intelligence for their International Wholesale Voice Business.

Odine Nebula+ will optimise TNZIs global presence, providing improved dynamism and control and an end to end management application globally. The solution will bring high performance, real-time dynamic routing policies & optimisation, along with comprehensive monitoring & alerting.

The network partnership also sees the deployment of virtual SBCs in strategic locations to modernise the core of the TNZI network and phase out legacy solutions, increasing network performance and driving cost optimisation.

Andrew Tierney, Executive General Manager – Global at TNZI, stated, "We're investing in our network capabilities to better serve our customers in a fast-changing global market. By partnering with Odine, TNZI is undertaking a large software enhancement project to enable us to react faster, maximise opportunities for our customers and release new capabilities to address market shifts. Our goal remains, as always, to be a trusted partner in the global telecommunications industry."

"We are proud to be selected by TNZI and work together to enhance and evolve the management of their wholesale voice business globally. Expanding our APAC profile also shows our global reach as a service provider and our ability to services customers anywhere in the world," said Nick Cowley, Global Sales Director at Odine Solutions.

Aydin Pirinccioglu, CTO at Odine Solutions, said, "The scope of this project illustrates TNZI's breadth of vision as they adapt to market changes and modernise their network. Odine Solutions brings a wealth of engineering experience, and we look forward to playing a key role in TNZI's network transformation."

About Odine Solutions
