

Mobile World Congress 2022 with RF Morecom in Barcelona.

Our booth Number is **#7F21-D**

MWC
Barcelona

28 February - 3 March 2022

RF Morecom Corea is a leader of development and manufacturing for RF &M/W filter and divider/combiner, cable & connector **UP TO 60GHZ**, and PA module/RF repeater in Korea. We are qualified and experienced for more than 20 years in RF&M/W market and support our valuable customers with high-end technology solution. We have high-end products line for 5G(sub 6 and mmWave)

5G Filter Solution for Massive mimo beamforming antenna (Ceramic Waveguide Filter)

(20x20x7 mm)

Ultra small size

3.5GHz

Ceramic filter

(35x15x7 mm)

SMD type

Medium power

Low cost

5G wideband combiner

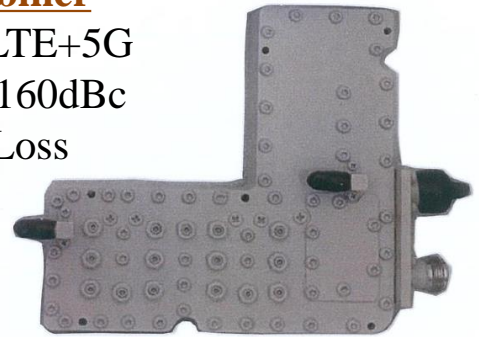

Multi-band

Combiner

3G+LTE+5G

PIM 160dBc

1dB Loss

mmWave 5G cable and connector

Up to 60GHz cable

Unbelievable flexibility

Excellent stable phase matching.

Excellent strong phase stability.

Very low loss

LTE and 5G mobile coverage solution(Digital Repeater/DSP module)

Digital ICS Repeater

FDD/TDD for 4G and 5G from 700Mhz to 3.5GHz for indoor and outdoor from 0.1watt to 10watt.

DSP Module

Digital Signal Processing Module with 32 channel selection filtering for mobile network/public safety/military application.
