

Exclusive Supply(Smart Filter for **5G** Base station & Repeater)

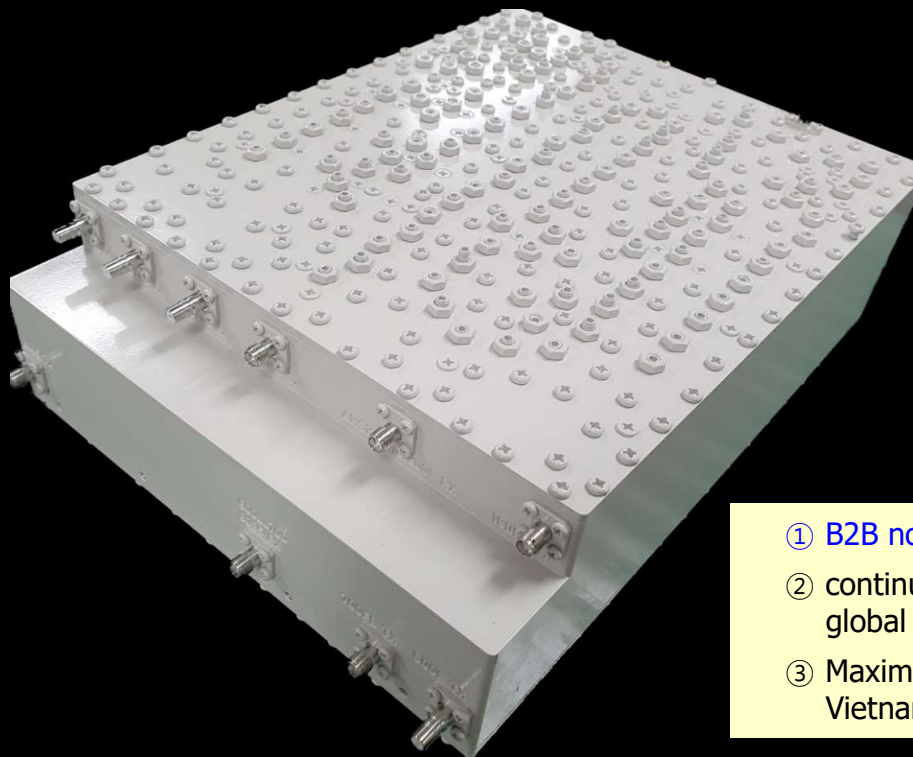

System	Band Pass Filter For 3.5G
Freq. Bandwidth	3500~3600MHz(Bandwidth 100MHz)
Concept/Features	Enhance Low and High Temperature Durability

Possess **original technology** of excellent eliminating interference RF Ultra Band Combiner for 5G

High PIMD Solution Multiplexer

Needs For global mobile carrier, excellent performance, applied PIMD solution + several frequencies(7band) banding product

- ① B2B non-replaceable product
- ② continuously growing due to interference b/w global mobile communication businesses
- ③ Maximize revenue through fully operating of Vietnam Manufacturing company
