THE JOURNEY STARTED IN 2003

WORLD WIDE COVERAGE

With over 19 years of experience as an SMS provider, BroadNet is a prominent global business messaging solutions provider and a GSMA member that offers a various number of services such as Bulk SMS, A2P SMS, HLR Lookup, SMS Firewall, and SMSC Gateway, all based on globally recognized standards and technical structures.

Since 2003, Broadnet has experienced steady growth as it is now one of the leading telecommunication companies in SMS-related services and serves more than 60,000+ satisfied clients globally. Furthermore, Broadnet has been presented with ISO 27001:2013, ISO 9001:2015 and GDPR for delivering quality and security of SMS solutions that meet the requirements and expectations of today's clients.

Broadnet develops its own exclusive SMS platforms to provide innovative, customized, and differentiated services. Coupled with direct connections to over 680 operators and carriers worldwide, we are able to offer top-quality routes with exceptional performance and reliability at very competitive prices.

Starting from BroadNet HQ in Lebanon, we now have branches in UK, UAE, India, Italy, Malta, KSA, Egypt, Australia and Jordan. We are also planning to open more branches across the world, where you may examine more innovative ideas and breakthrough technologies.

VISION:
We are aiming to become a global spearhead in Messaging Service.

MISSION STATEMENT:
We are dedicated to delivering high-quality and innovative services with complete transparency and using the best technical and human resources for the job. We are also committed to improving our business value by continuously improving the quality of our own products and services.
