

New projects using micro wind turbines

Vibration monitor in railways, highways & mining ventilators

**VIBRATION MONITOR IN VENTILATION FANS FOR
TUNNELS TO AVOID ACCIDENTS & BAD QUALITY AIR**

MAIN FEATURES

- Low infrastructure: INDU-EYE → LoRaWAN Gateway → DAEVIS
- Long range coverage: 750m in this project
- Parameters:
 - Monitor: 3-axis vibration
 - Precision: 0.01g
 - Max vibration: $\pm 4g$
- Wind source from 10Km/h
