

# WalkMe Management Dashboards

Empowering executives with data & visibility  
into their digital transformation initiatives

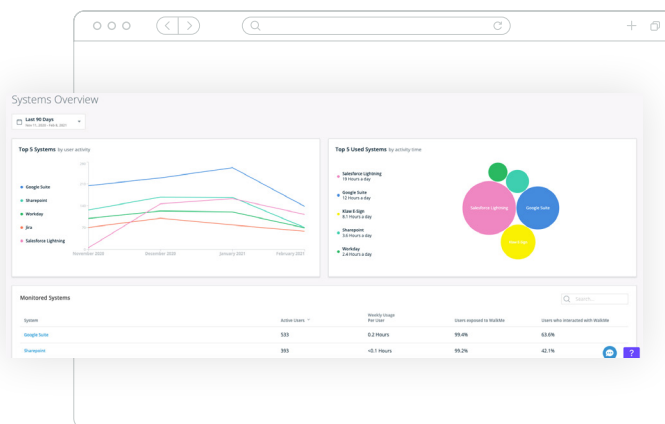

WalkMe's Management Dashboards provide you with visibility into your tech-stack, employee productivity, and the status of strategic digital initiatives. With WalkMe, gain a consolidated view of data from web and desktop systems across your entire organization and make data-driven decisions to propel your digital transformation initiatives forward.

## Analyze entire tech-stack adoption and utilization.

With the System Overview Dashboard, gain a unified, cross-application view into your entire tech-stack. Use this dashboard to understand software usage on any web or desktop system across your organization, including:

- License utilization or duplicity of applications throughout the organization
- User adoption of new or existing applications
- Utilization of a desktop system to validate upkeep and ongoing investment

Gain all of this visibility, and more, with WalkMe's System Overview Dashboard.

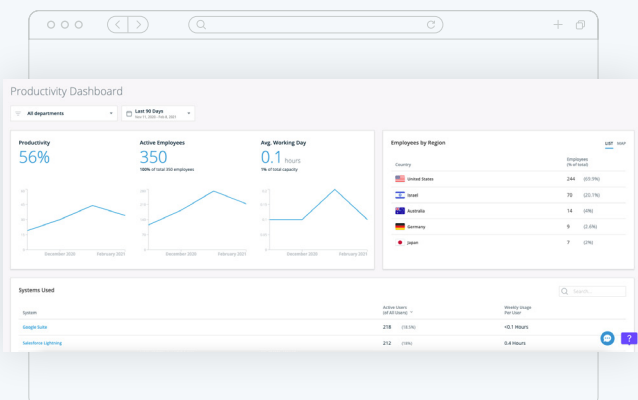

## Gain visibility into employee productivity across your tech-portfolio

With WalkMe's Productivity Dashboard, you can uncover employee productivity across your tech portfolio. This dashboard allows you to identify:

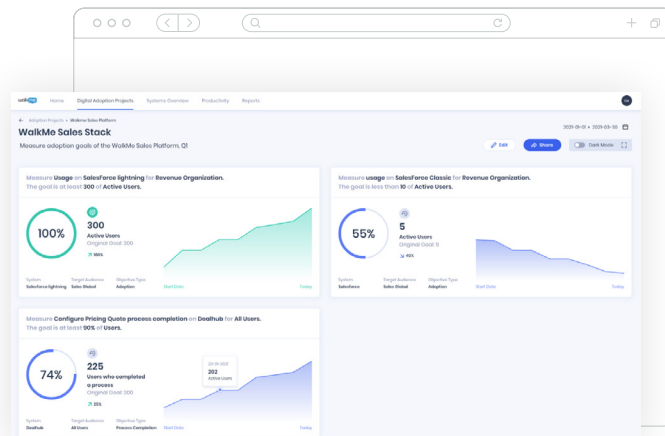

- Low employee productivity on a certain application
- Low engagement rates by regions or departments

Gain all of this insight in one place, and take action, to get your employee productivity back on track.

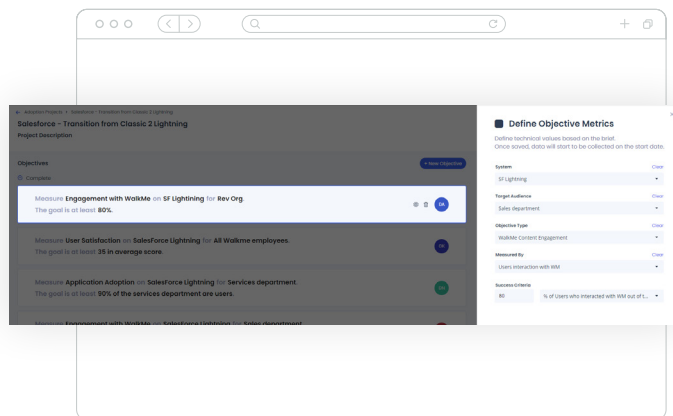

## Manage your digital transformation KPIs

With WalkMe's Digital Adoption Projects Dashboard, you can define, track, and measure KPIs as they relate to your digital transformation and business goals - from software usage through feature adoption.

See your strategic initiatives across systems and business units, in one view:

- Monitor adoption of the new applications being rolled out internally
- Track the migration and adoption of users to new systems
- Understand if new company-wide processes are being completed

Manage product rollouts and feature adoption:

- Measure adoption of new products being released to your customers
- Track KPIs of new features rolled out to your customers

Easily track and measure your company wide strategic initiatives, all in one place.

## With WalkMe's Management Dashboards...

Track & measure your digital transformation initiatives

Make data-based decisions across your organization

Understand company wide tech-stack adoption

## About WalkMe

WalkMe's cloud-based Digital Adoption Platform enables organizations to measure, drive, and act to ultimately accelerate their digital transformations and better realize the value of their software investments. Our code-free platform leverages our proprietary technology to provide visibility to an organization's CIO and business leaders, while improving user experience, productivity and efficiency for employees and customers.
