# A closer look

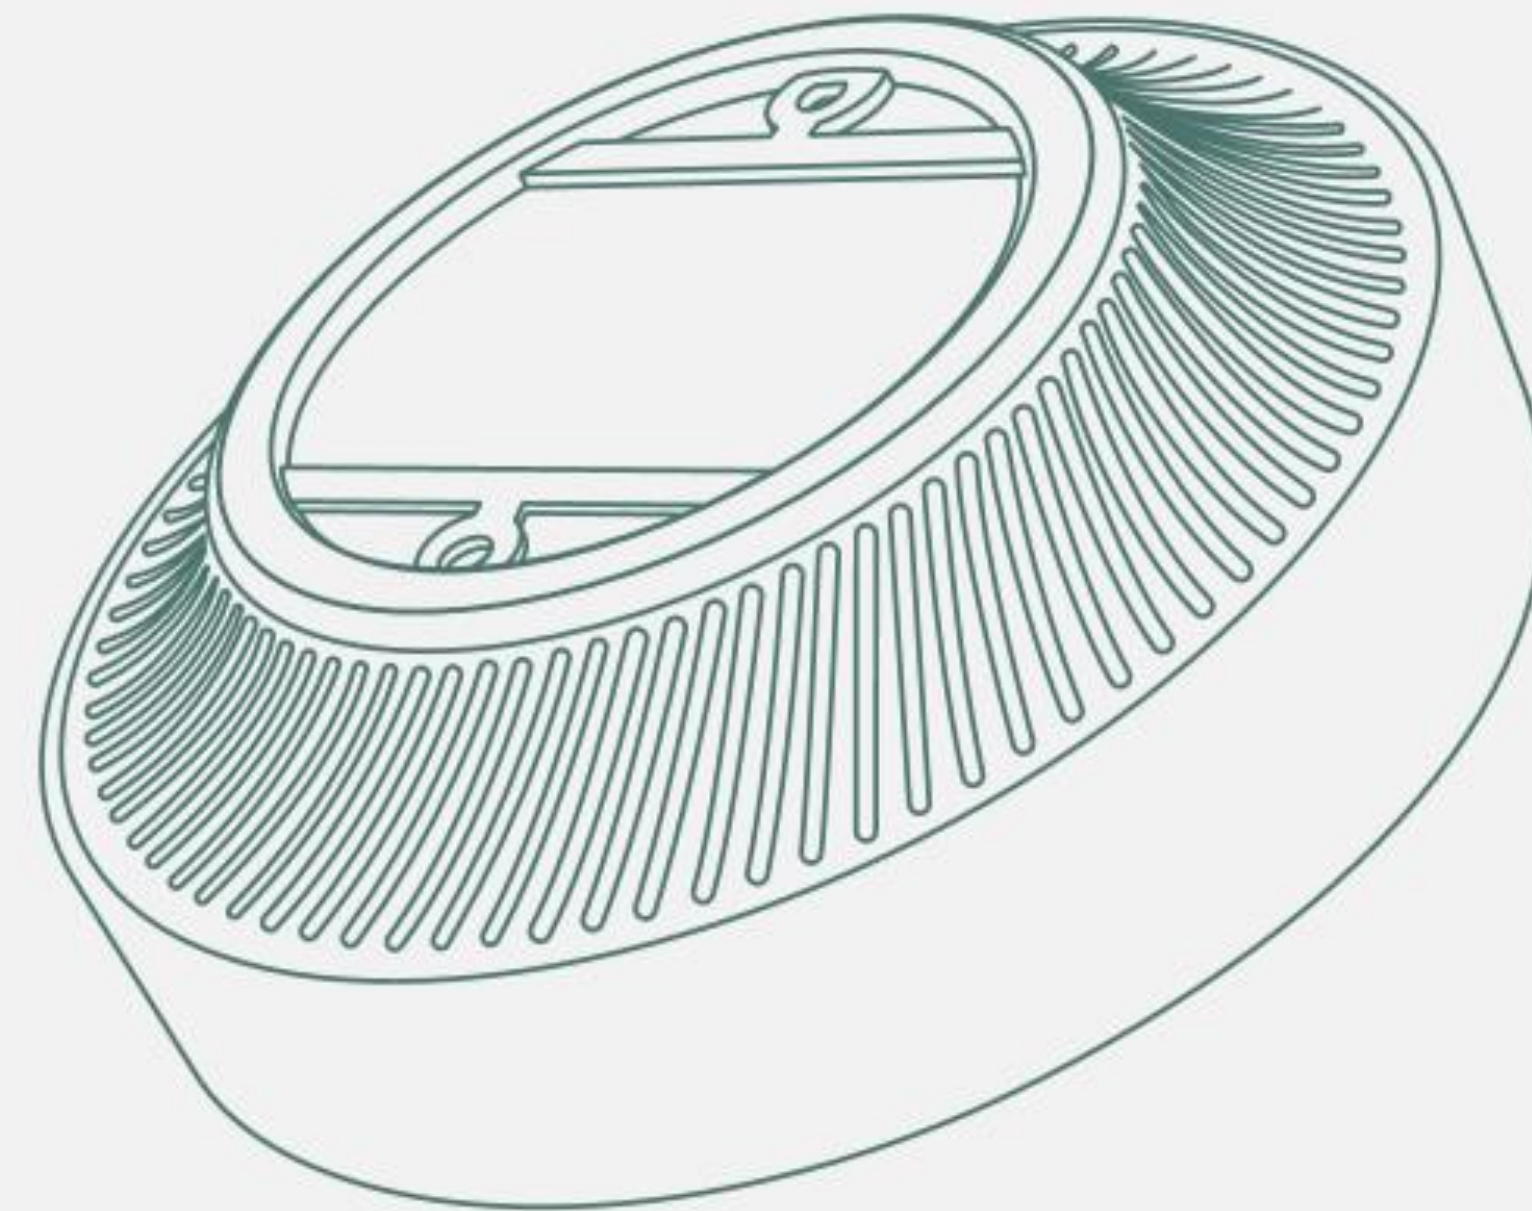

## Sets up in not time

The entire process of installing the muun is so easy it's actually kind of boring: DIY plug-and-play with seamless app integration, and you're good to go

# Knows about fire before fire does

In the moments before a fire erupts, the highly poisonous gas carbon monoxide (CO) is emitted. You can't smell or see it. That's why the muun is equipped with one of the most sensitive carbon monoxide detectors available.

# Safety that's beautiful

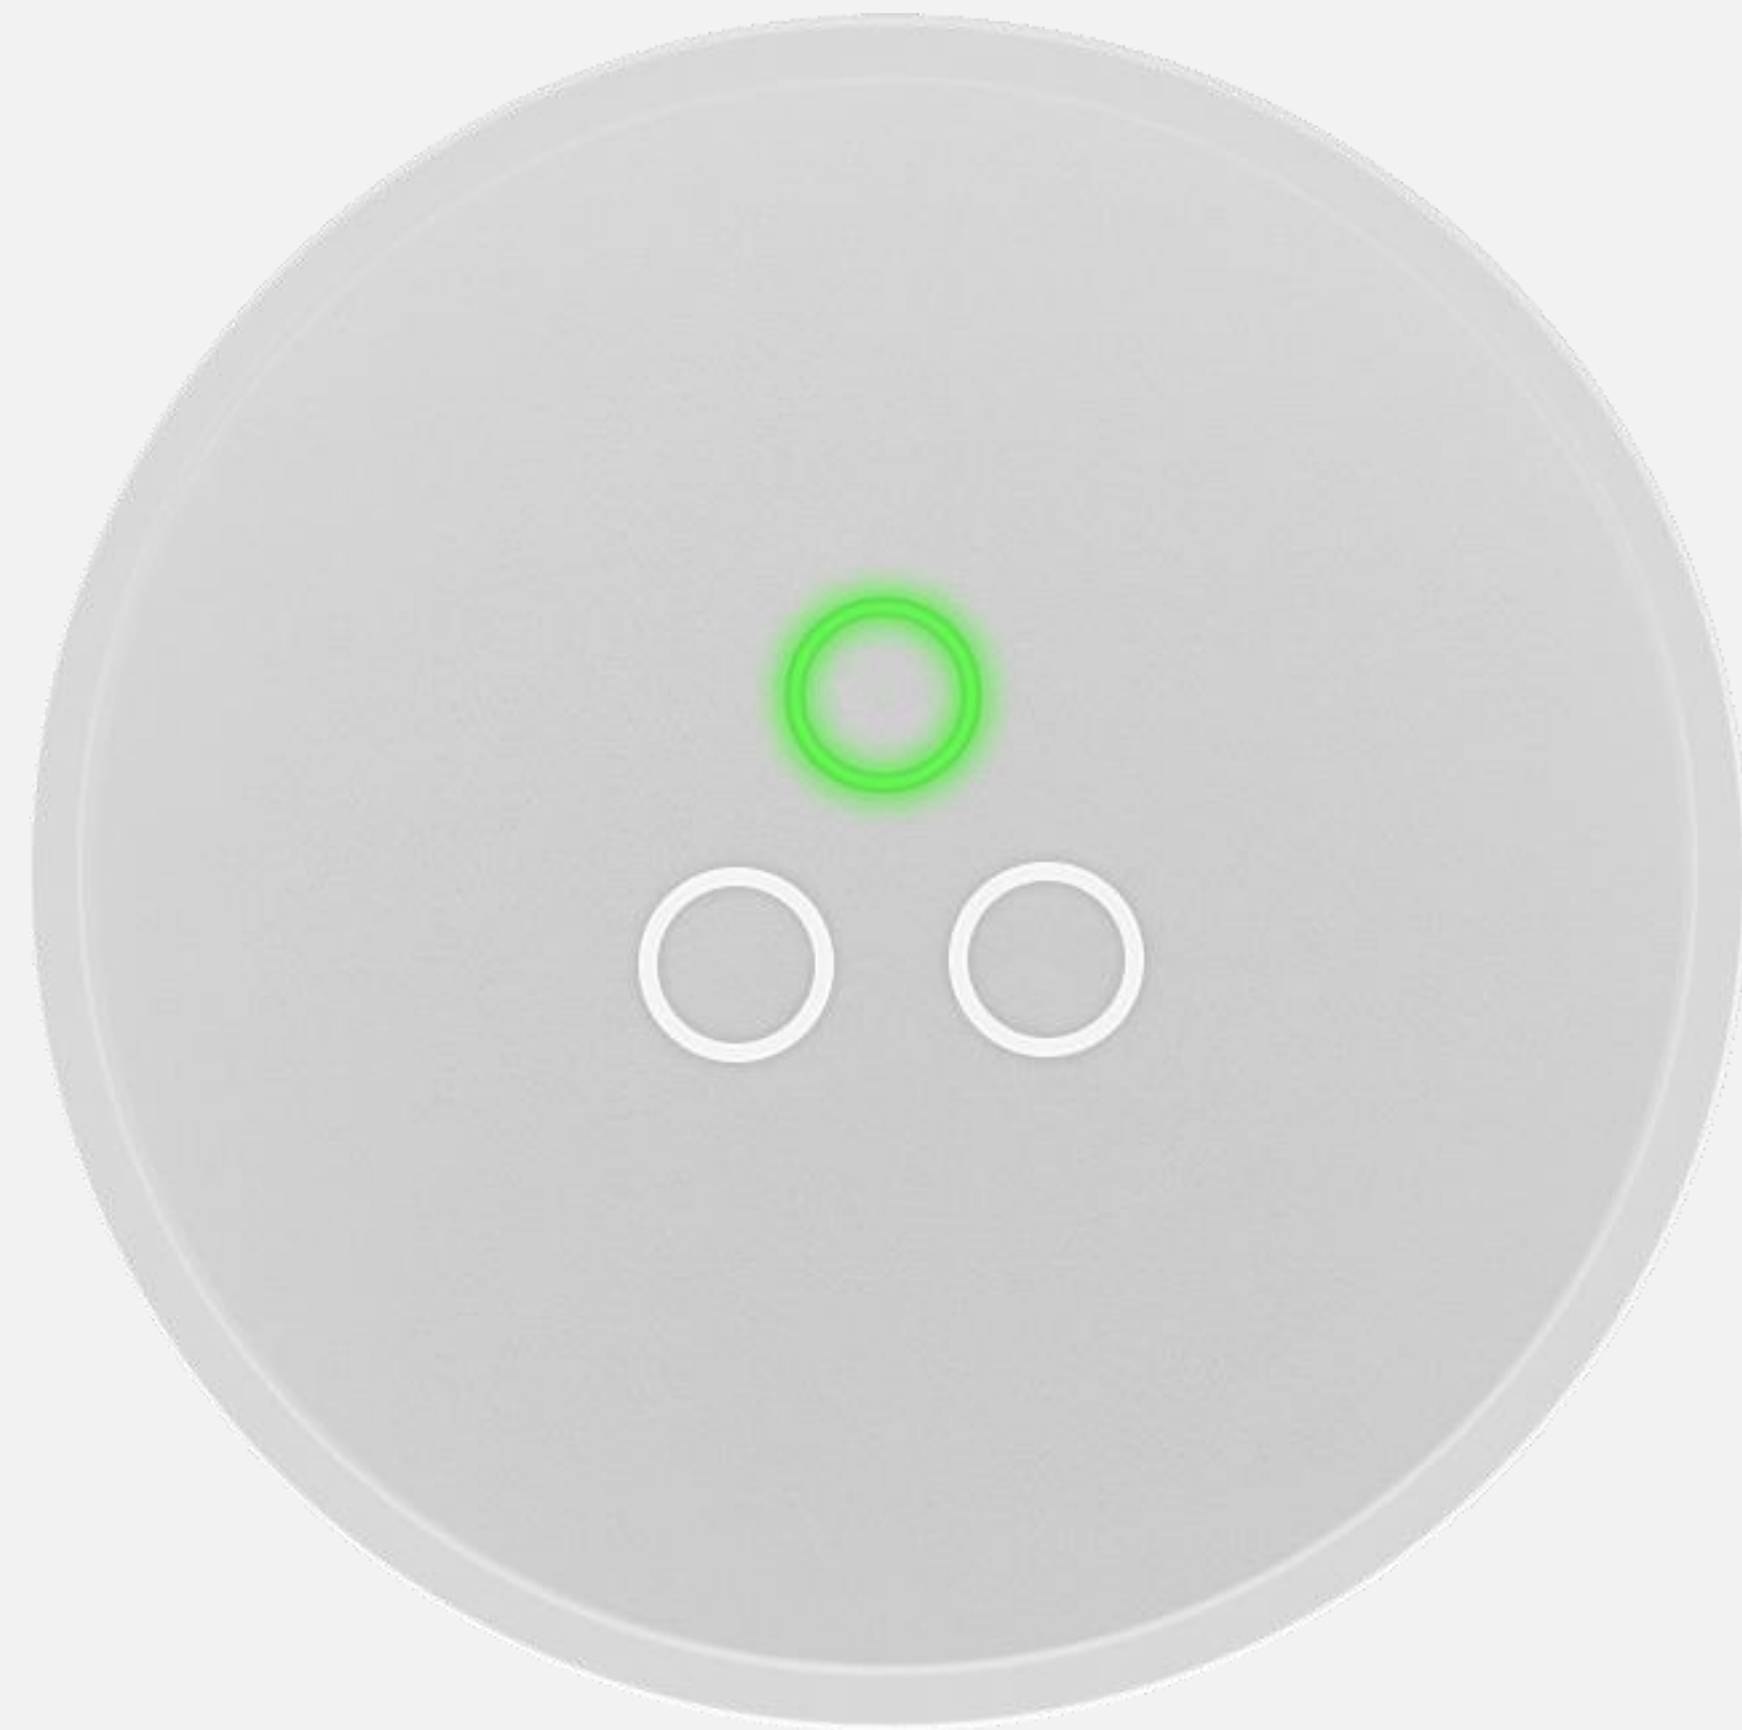

You don't have to sacrifice aesthetics to protect your home. We've designed the muun to fit in with any interior without disturbing it. Sensors hidden beneath the surface of the muun collecting smoke to measure it accurately.

# Blends in, unless there's a reason not to.

Muuun shines in three colors to let you know what's going on. Intuitive color status indicators will let you know if everything is alright, and when it's time to check out what's cooking.

# muuun

## Structure.

The gaps for smoke are positioned as close to the ceiling as possible – for swift detection.

## Design.

Crafted based on user insights following series of in-depth surveys.

## Operation.

Discreet functionalities: LED status indicators and the test button integrated seamlessly with the design.

## Material.

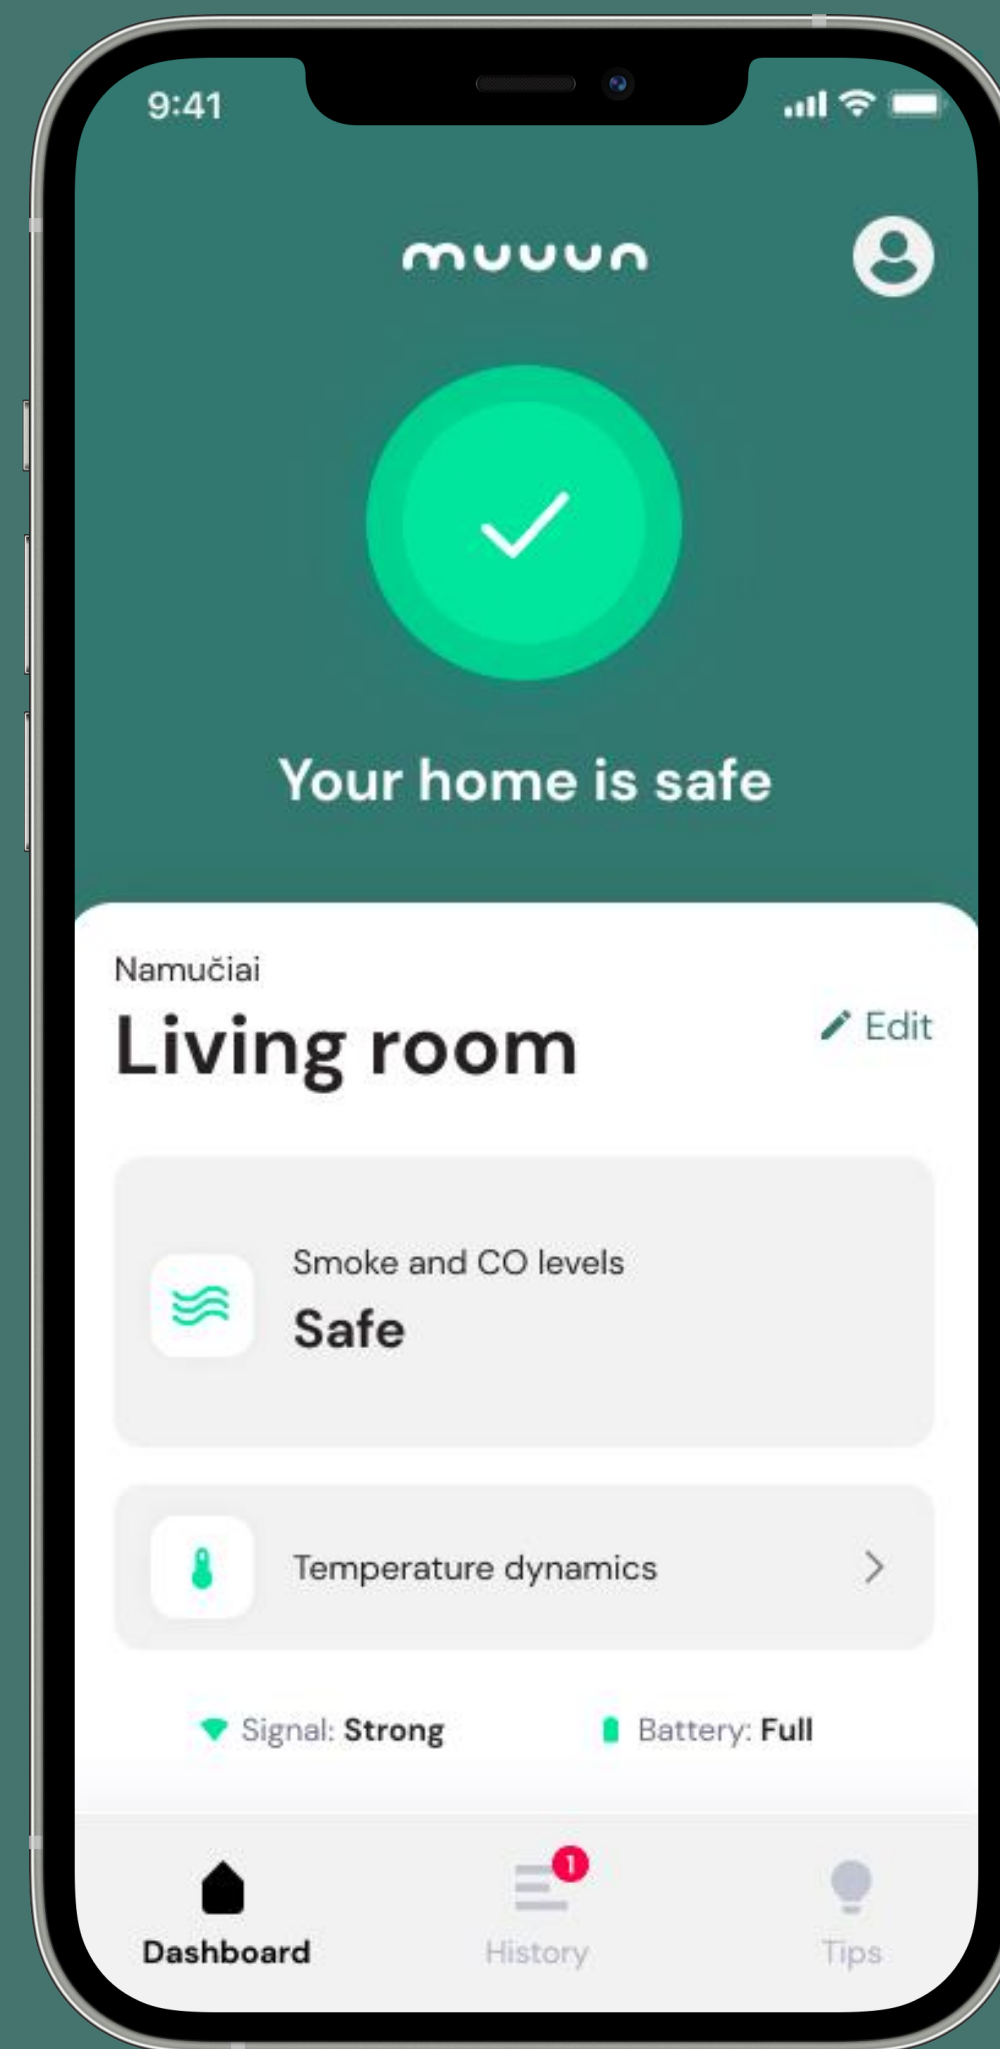

Resilient to high temperatures and compliant with EU regulation.

# Mindful design

# We fit fire safety into a pocket.

Our app gives you full control of your muuun system.

It lets you monitor temperature, see the full history of events, and review other useful information about the home and the device.

## Phone alerts

Get notified as soon as something's not right. Even if you're away.

## Tips and tricks

Find useful information on installation and use — manuals and FAQs.

## Feedback

Get reports about temperature dynamics, sensor health and beyond.

Be sure that you and your loved ones are protected. At home and beyond.

Home

Monitor fire safety levels at your house remotely, and receive real-time alerts in case something is a little off.

Family

Be sure that your loved ones are safe and sound all the time - it's easy to connect multiple households to a single app.

Second Property

Have a peace of mind about your real estate at all points, even if you are far away. Oversee all spaces with a single fire safety system.
