

ASLEEP is a sleep tech start-up based in Seoul, South Korea. We digitize the sleep process by conveniently tracking, accurately analyzing, and providing all-day sleep coaching to improve sleep.

AI ANALYSIS

ASLEEP AI diagnoses and identifies sleep stages and REM levels using sound and RF data

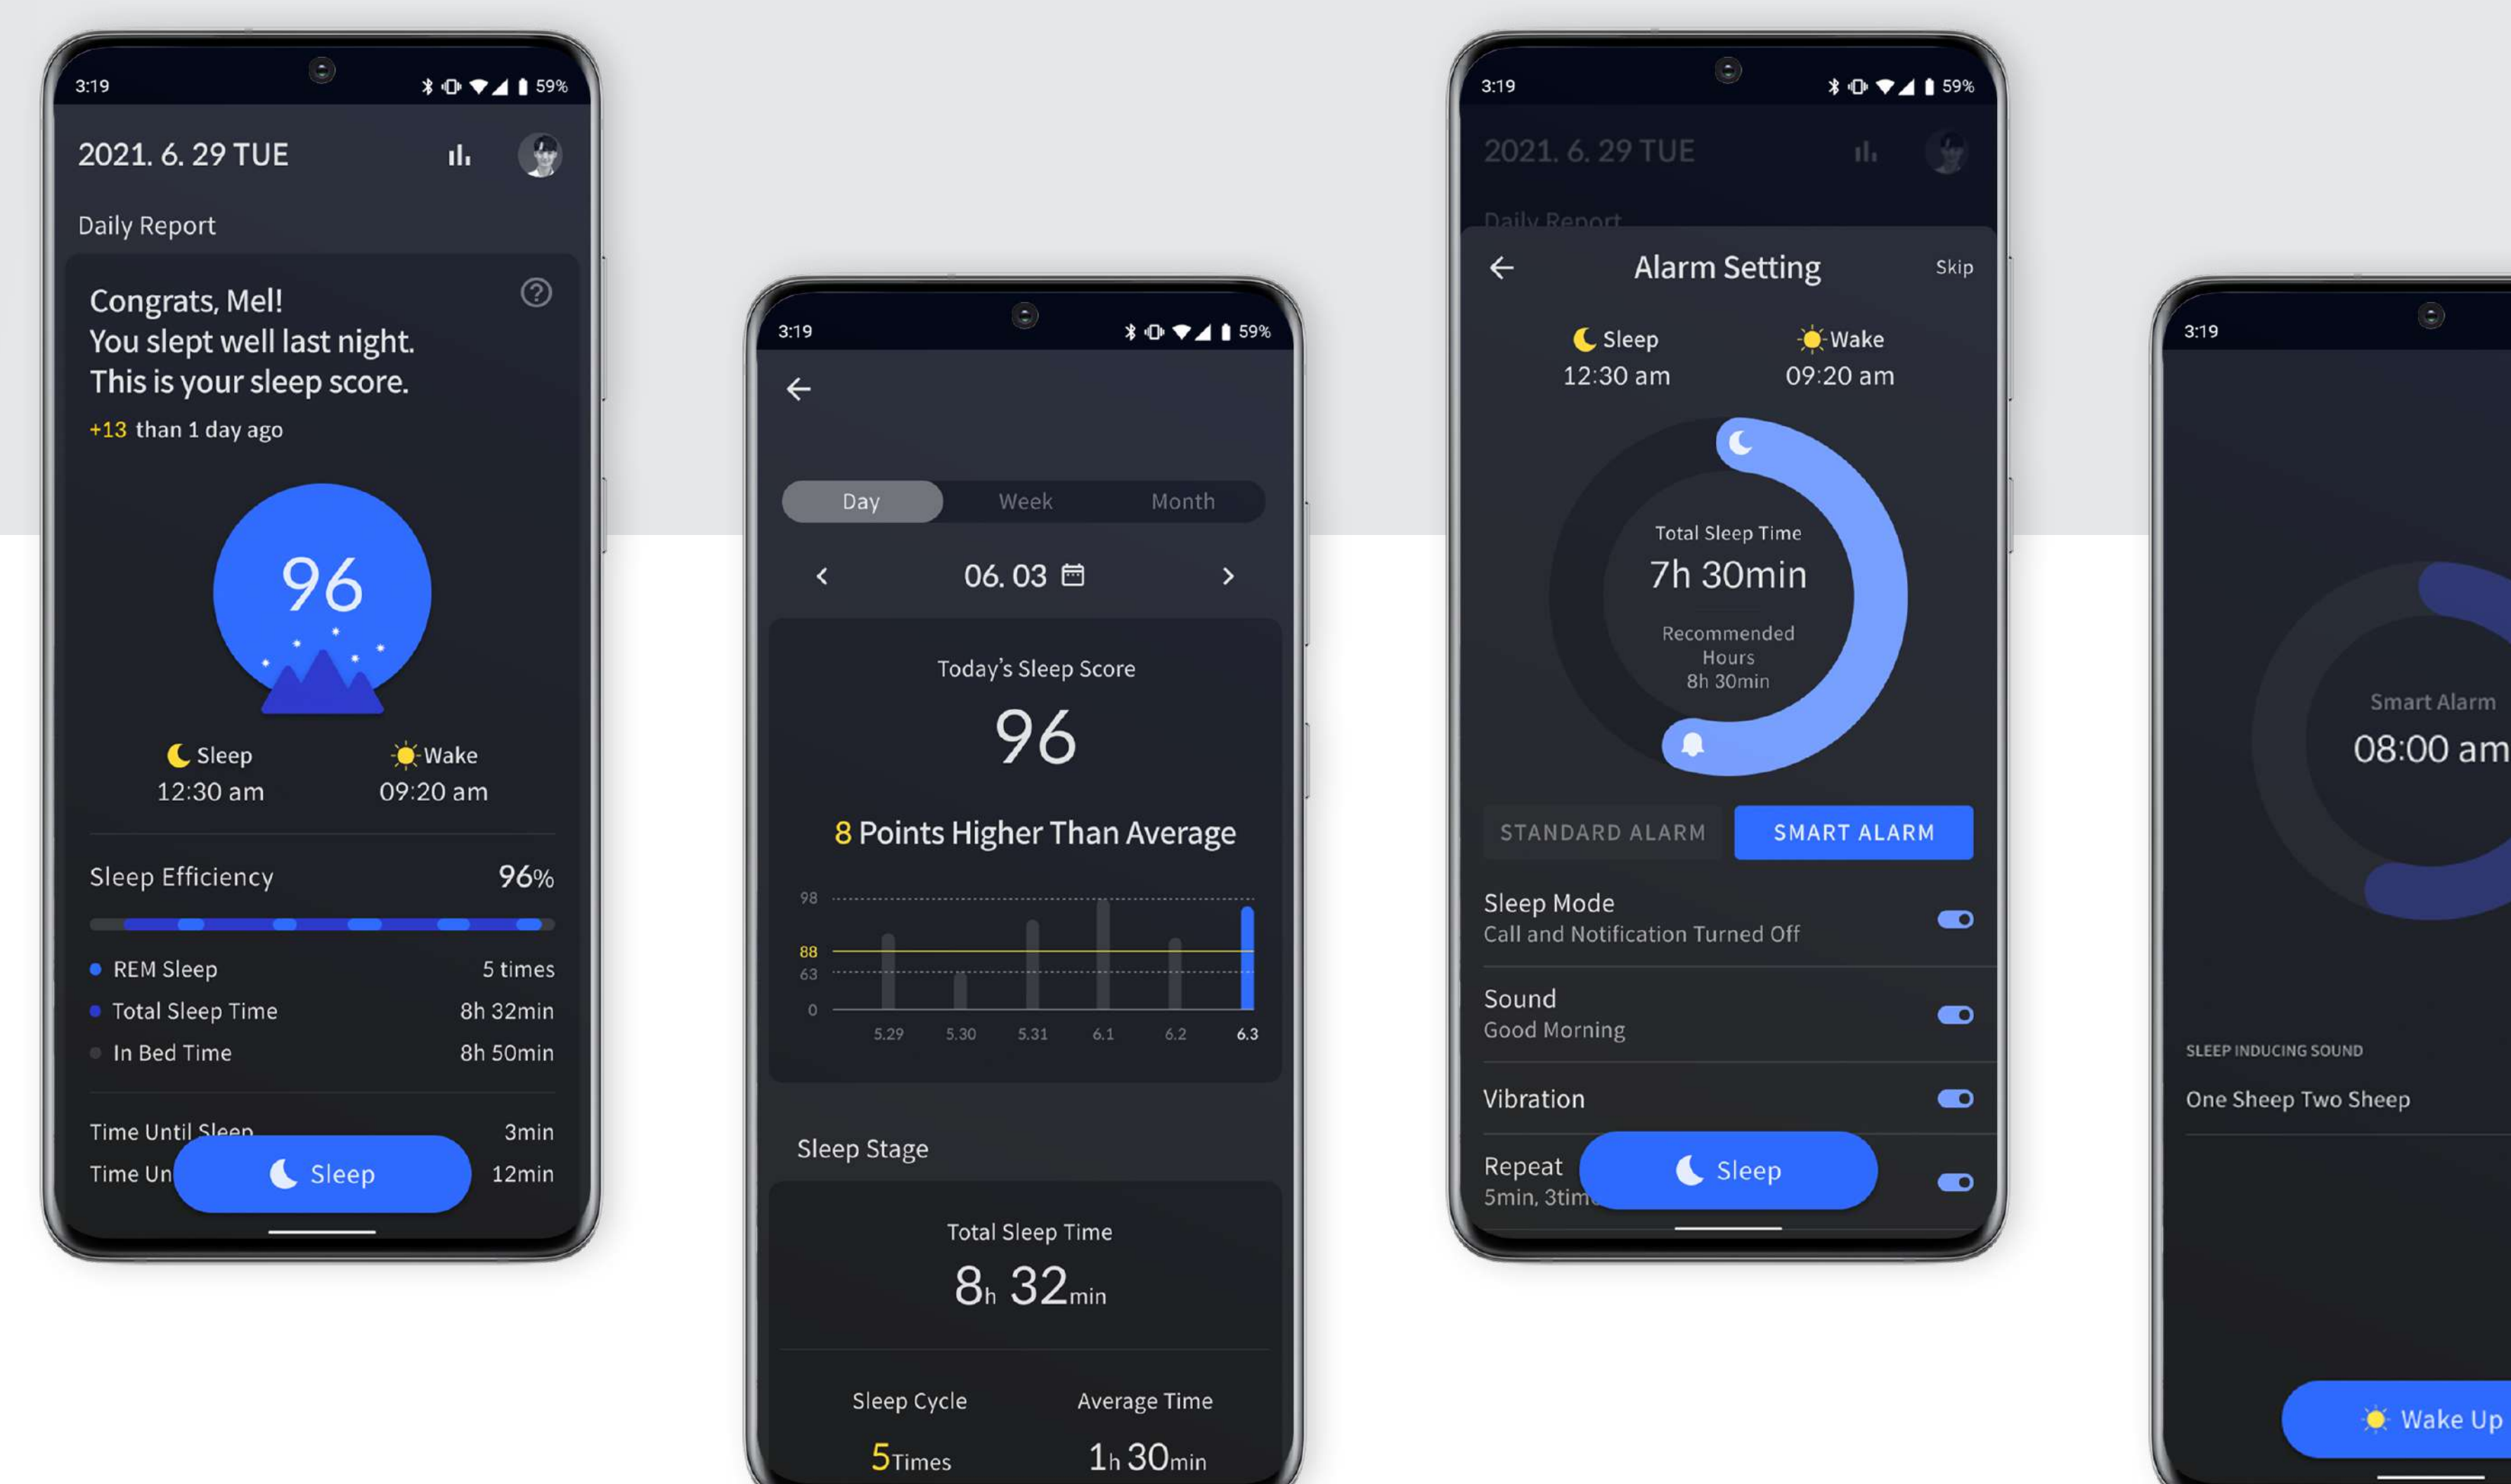

CONTACTLESS SLEEP TRACKING

ASLEEP sleep technology utilizes sound and RF tracking and analyzes users' sleep stages through an IoT solution

MOBILE APP

Through tracking & analysis of the sleep data, we provide personalized sleep hygiene management via our mobile application
