

**DT One offers a wide selection of data bundles**

**INTERNET ACCESS**  
Surf the internet

**CALL TIME & SMS**  
Call and text

**COMBINATION**  
Enjoy calls, data & text

**YOUR BENEFITS**

Access to over 5 billion consumers through a single API connection

Differentiate and grow your business with a unique cross-border VAS offering

Easy implementation - no license or set-up needed

**FOR YOUR CUSTOMER**

It's simple: Only a phone number and top-up value are required

It's cost-effective: Data bundles are a more economical solution to keep connected across emerging markets

It's instant: Top-ups are received in real time so senders can connect immediately with their loved ones via SMS, call or through the internet

We interconnect service providers in a global network that enables prepaid mobile phone users to send top-ups and data bundles and make bill payments, in real time across more than 160 countries.

Seamless integration

Real-time monitoring & reporting

24/7 Global support

Maintain accounts in foreign currencies

Global network for mobile top-ups and rewards for emerging economies
