future your BSS.

future your TCO, **f**uture your innovation, **f**uture your speed.

fBSS is the only intelligent BSS stack. It delivers game-changing results.

Today.

Fast as f.

100% API-driven and built for and with the public cloud, it delivers blistering speed, scale, and security at the lowest cost.

Smart as f.

AI that can detect subscriber behavior changes and develops new hyper-personalized plans to increase ARPU or deflect churn.

Open as f.

fBSS is designed to let you customize and integrate to anything. No expensive CRs or professional service fees. Be able to modernize, integrate and rapidly launch new features in days not months.

Affordable as f.

Dramatic public cloud financial benefits. Requires ZERO Capex and up to 80% lower TCO.

Totogi fBSS uses machine intelligence to anticipate churn and create hyper-personalized subscriber plans. It analyzes market information to increase ARPU, accelerate acquisition and decrease churn. As you outpace your competition, your customers turn into evangelists!

Benefits

Accelerate revenue

Evaluate how your subscribers use your services and give them hyper-personalized plans based on that data. You'll increase acquisition, reduce churn and grow ARPU – significantly.

Lowest cost, greatest returns

Spend ZERO Capex and save up to 80% of your TCO because fBSS is built for and with the public cloud. Or, to put it another way, you'll see 10x the performance for 10% of the cost.

State-of-the-art machine intelligence

Detect subtle subscriber behavior changes and assess likelihood of churn – then hit them with competitive marketing and individualized plan designs to stop churn in its tracks.

Turnkey DSP offerings

Inject joy into your subscribers' lives with bundled premium OTT services. You get immediate access – no negotiation, no IT involvement. It's days, not months.

Get started today. Create tangible business impact in days, not months!

Charging

Transform your billing operations. Scale, launch new services quickly and give power to your end users. Only pay for what you need and never buy capacity ever again.

Plan Design

Grow ARPU and entice new customers with automated hyper-personalized – or wizard-guided-plan creation.

Churn Prevention

Stop churn in real-time when you act on precise churn predictions with hyper-targeted marketing and plans.
