ABOUT IPEOS I-SOLUTIONS

Your powerful and efficient Open Source expert

IPEOS is a company specialised in the integration and outsourcing of UNIX/Linux solutions in heterogeneous environments (Windows, Mac, Linux...), in the development, maintenance and hosting of web solutions.

Our Team

- The strength of IPEOS is its team and its startup type corporate culture
- The IPEOS team, made up of production engineers, consultants and specialised technicians, is able to offer high value-added services locally, thanks to an open culture that encourages Research and Development and promotes innovation.
- Openness to collaboration
- In addition to integration/development or outsourcing assignments, IPEOS employees are also involved in software such as SPIP, DJANGO or GLPI, which is used in France and around the world.

IPEOS' assets

- **Service** : the IPEOS team is a company committed to the success of its clients' projects, which translates into a culture of results and a very high level of support.
- **Customer satisfaction** : is the guarantee of the success of the projects entrusted to us.
