# Remote Support with AR via Secure Global Network

— AceReal® Global —

**NTT DOCOMO, INC.**

## Support for personnel abroad

## Scenarios shared via AR glasses

Instructor in Japan

DOCOMO network

DOCOMO cloud service

Roaming network

Worker abroad

1

## Flexible support

Visual support is provided by sharing the instructor's field of vision in real time and utilizing AR displays. Splash-proof, dust-proof and heat-resistant AR glasses can be helmet-mounted.

2

## Diverse AR glasses and multi-location connections

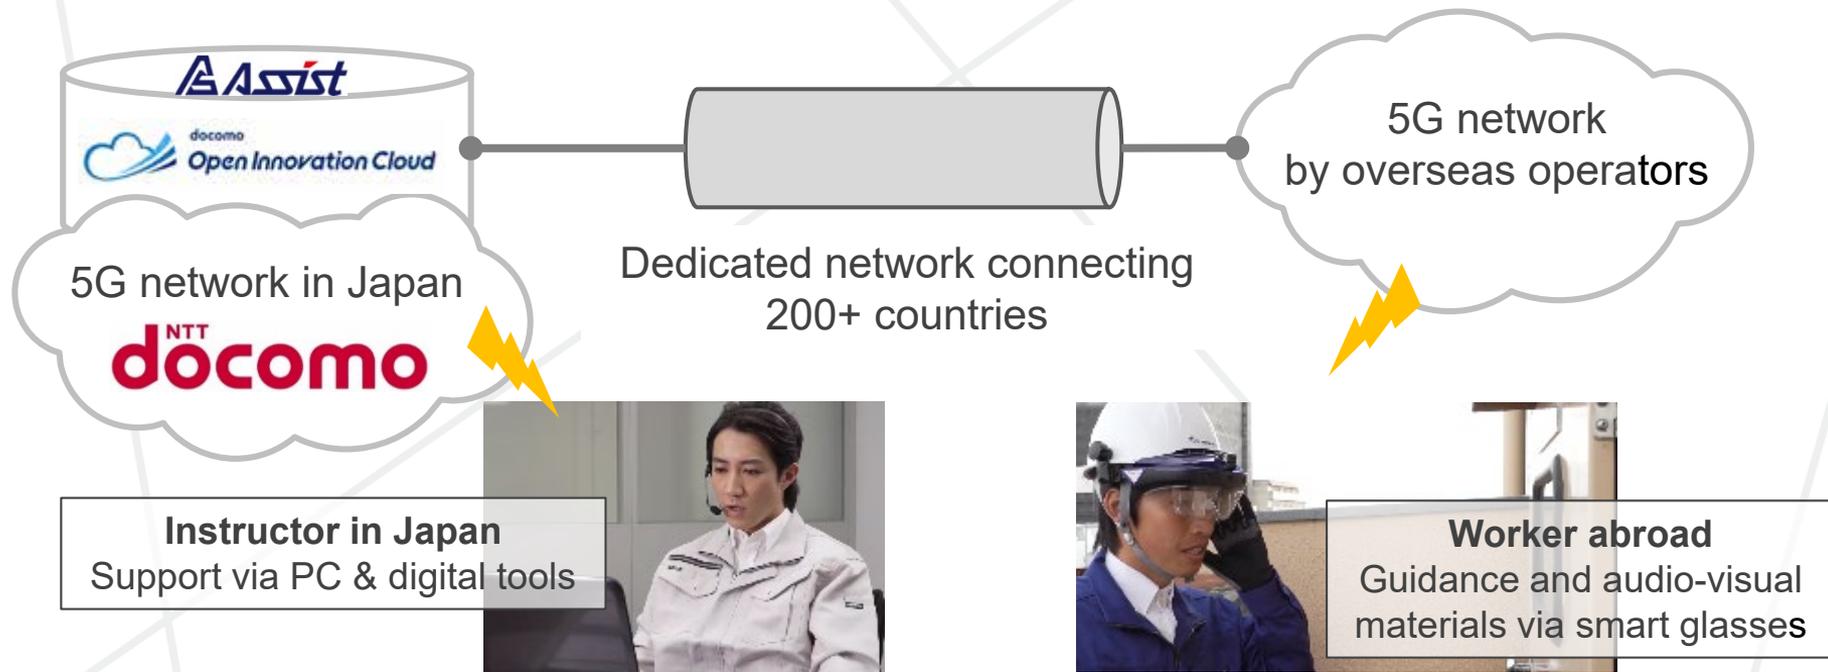

Various AR glasses are compatible, including Google Glass and Real Wear as well as AceReal One. Multiple locations can be supported simultaneously, including with interpretation.

This service is under development and may be subject to change.
