

Time and Attendance Management

Real-Time Registration and Geolocation for All Your Workers and Devices

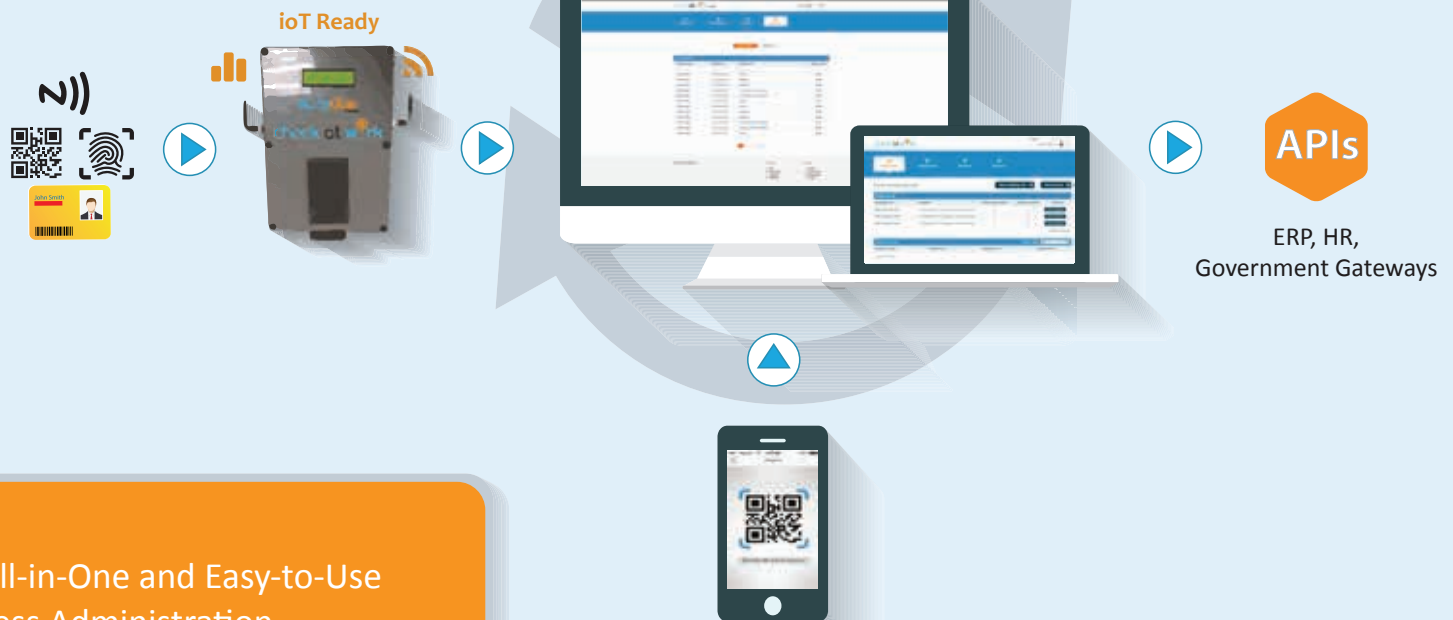

The CheckAtWork system consists of a platform and a mobile application (IOS, Android, and Windows Phone)

Additionally the system can be coupled with the mobyGate (IoT Gateway) which allows the reading of any NFC tags, Bar/QR-Code, Chips, Cards, Beacons and large range of Sensors.

EASY

SAFE

MOBILE

- All-in-One and Easy-to-Use
- Less Administration
- Real-time Registration
- Flexible Solution
- No More Queues at Gates/Doors
- Multi-OS and Multi-Platform
- SaaS and On Premise

If a worker does not have a smartphone, different roles such as team leaders and supervisors allow and monitor check-in of lists of people from their devices.

Alternatively, workers can use their badge, Identity Card, QR-Code to check in and out via/through the mobyGate device. This makes it possible to have several entry points on a single place.

Software as a Service - On Premise - Private Cloud

Platform

- Centralisation of Various Data Sources
- Scheduling
- Monitoring
- Multi-Right Roles Definition
- Check-in Supervision
- Online Pre-registration
- Possible Integration with any Internal System (ERP, HR...)
- Customized Reports and Export of Data
- Real-Time Information Always Available

Mobile Application

- One application only for managers and users
- Bar/QR-code Reader
- Calendar
- Workplace Geolocation
- Multi OS
- Online/Offline Mode
- Check-in and Check-out + Temporary Check-out (Break and Lunch)
- Absence (Sickness, Vacation...)

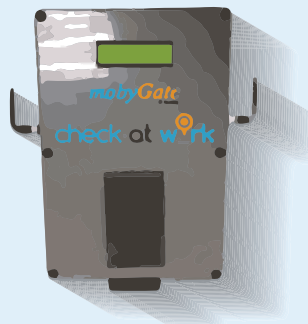

Available on

mobyGate
